BYRD TELLS THRILL OF RETURN FROM POLE TRIP

Flyers Wildly Greeted After Epic Flight Over Unexplored Wastes; Many Air Problems Solved

[In this installment of Lieutenant-Commander Richard E. Byrd's personal story of his flight to the North Pole a week ago, he tells of the problems confronting him on his return to King's Bay and the welcome accorded him there. His story is being published only in The Times in Southern California.]

BY RICHARD E. BYRD
[BY WIRELESS—EXCLUSIVE DISPATCH]
[Copyright, 1926, by the New York Times]

KINGS BAY (Spitzbergen), May 16.—As we drifted over the pole I thought of a little coin I carried pinned to my shirt that had been pinned to Peary's shirt when he reached the pole. For the second time that little coin had reached the top of the world. I had also carried it with me in the Arctic last year.

I was convinced now that we could tell how much we had drifted by the wind to the right or left by the amount the magnetic compass would differ from the sun compass. Suddenly it occurred to me that there was a way to navigate while flying above a fog with no view of the ground. So I no longer felt apprehension about the airplane's great enemy—fog. When I took the wheel and the rhythmic hum of the motors made me extremely drowsy. Before I realized it I dozed off for an instant and was brought to alertness by the increased noise from the motors, caused by increased speed from going downward. I quickly brought the plane to an even keel and saw to it that it did not doze off again.

Our labors before leaving had not been under considerable strain and we could not relax for a moment without feeling fatigued. We had known that the wonderful weather we had had would not last long and had hurried to take advantage of it. We had perfect confidence in Haines of the United States Weather Bureau and wanted to go when he gave the word.

SEXTANT FALLS
When Hensch took the wheel again, I found my precious sextant had fallen from the chart board to the deck. The vibration of the machine having jarred it off. The glass was broken. This sextant was a veteran of several flights. It had been with me since the first attempt to cross the Atlantic in the great R-38. Across the Atlantic and our 3500 miles of flight in the polar region last year. But it will be easy to repair.

For the first time we were concerned over our return. What would we do about leaky tanks? I was a little worried about the extra oil tanks we ourselves had put in the plane and no fault of the mechanic who was functioning perfectly. We had installed the tank to carry

NORGE CREW DISMANTLES SHIP AT ALASKAN TOWN

Precautions Taken for Arctic Trip Justified in Grim Fight With Fog After Crossing North Pole

In this dispatch Frederick Ramm, only correspondent on the Norge, continues his narrative of the airship flight. It was broken off yesterday as he told how the dirigible lost sight of land as the fog closed in at Point Barrow, and flew out over Bering Strait. Realizing the danger Capt. Amundsen had given orders to the navigator to steer toward land wherever and whenever it appeared. There Mr. Ramm picks up the thread of his story. The dispatches of Mr. Ramm appear exclusively in The Times in Southern California.

BY FREDERICK RAMM
[BY WIRELESS—EXCLUSIVE DISPATCH]
[Copyright, 1926, by the New York Times]

WITH THE NORGE, AT TELLER (Alaska)
May 14, via Nome, May 15 (delayed in transmission).
—We first steered due east (after losing sight of land at Point Barrow and finding ourselves over the Bering Strait,) then we observed that course was giving first open water and then ice, even toward the south. Such drift ice is better to come down on than open water.

We changed our course accordingly, turning northward where the ice was better. We made slow progress with 40 deg. of drift at times, more than we had all last night. We called wireless stations in an effort to get our bearings, but in vain.

At last we crossed land and saw an Eskimo hut. We tried to go down to ask our position, but heavy squalls and bumps in the air prevented this, then we went up through the fog to reach the sun and thus got our latitude observations.

DRIFT INLAND INTO ALASKA
During this time we had drifted a good distance inland into Alaska. It took us one hour to reach the coast again after we had dropped to a lower altitude, as we had lost our exact position.

The fog was very thick now. We could hear the Nome wireless calling another station, and had just time to pick up its bearings. Then our position was soon found. We were making for Cape Prince of Wales.

We traveled always in a northwest direction with 80 deg. drift. Often we started only to stall. From Cape Prince of Wales we followed the coast but the wind now was down the mountains and very bumpy, throwing the ship about. A barograph curve looked like a seismograph curve.

DECIDE TO LAND AT TELLER
We again lost our position. The ship was so bumpy it prevented us from going lower for visibility. As the wind was always increasing we gave up looking for Nome and decided to land at Teller, where the ground conditions seemed favorable. Aware of what a landing with a dirigible is in this kind of weather, so much more difficult without assistance on the ground, everybody prepared for the worst.

[Here a section of Mr. Ramm's dispatch describing the landing of the airship has been delayed or lost in transmission. It has not been traced up to this time.]

TO BE SHIPPED TO ROME
Since landing here the crew had worked hard dismantling the airship, which is to be packed in cases and sent back to Rome to be rebuilt. Only small damage was caused by the landing and it can be easily repaired. The first day of staying here, the crew rested to regain their vigor after their tiresome seventy-one-hour flight without sleeping.

During the flight every man was almost constantly on duty. Lieut. Riiser-Larsen, charged with the navigation, carried out a difficult job, bringing the ship from Spitzbergen to Alaska over the unknown regions in a most brilliant manner. In spite of fog, snow, heavy winds and lack of astronomical observations.

Forty-six hours after the dirigible left Kings Bay, he could announce to Capt. Amundsen and Lincoln Ellsworth that Point Barrow, which was fixed as the place to be reached in Alaska, was in sight.

Col. Noble followed with interest that never slackened the functioning ship's complicated machinery.

MEN GET LITTLE SLEEP
The flight proved that the precautions taken when the Norge was rebuilt during the winter for the transpolar voyage were justified by the actual conditions met. If, for instance, the detail that the propellers might be compelled to hurl ice projectiles against the gas bags had not been foreseen and the two bags near the engines made stronger, it is likely that the ship would have been forced to land on the polar ice.

The helmsman of the Norge, Wisting, did not sleep more than four hours during the flight. The wirelessmen, Gottwaldt, Storm and Johnsen, listened almost all the time for meteorological reports from the wireless stations around the polar basin, and so long as ice did not cover the antennae, generators and propeller, we took constant bearings.

EVERYONE BUSY
Malmgren constantly studied the weather conditions, made out the weather charts, based on meteorological reports and advised the captain and navigator the height to fly where there was the least danger that ice would load down the ship. In the motor gondolas Cecioni, Omdal, Arduino, Caratti, Pomella and Alessandri had hard jobs watching the engines and the numerous fuel and oil canals. They also repaired the canvas skin when the ice projectiles hurled by the propellers pierced it.

The provisions for the flight consisted of sandwiches, boiled eggs and meat cakes. These froze in the low temperature of the pole and the polar basin, while coffee and tea in thermos containers kept hot. The crew got no warm meat.

Immediately after landing we tried to establish communication with the Nome wireless station to inform the world that the ship and crew were in safety at Teller. The Teller wireless

NEW POLITICAL PARTY FORMED BY DE VALERA
[BY CABLE AND ASSOCIATED PRESS]
DUBLIN, May 15.—Eamon De Valera, who recently split with other Republican leaders, today inaugurated a new political organization called "Finian's Fall."

The principal point of its policy is to unite the people against the oath of allegiance to the Crown, which would enable the Republicans to enter the Dail Eireann, where they have hopes of becoming a majority and the would work for inclusion of North Ireland in the Free State.

The new organization was brought into existence with a demonstration at the Scala Theater. De Valera was loudly cheered by the large audience.

FRENCH TRY TO END DEBT Muddle and Save France
Early Accord With Britain Sought; Brand to Demand Ratification of American Arrangement

PARIS, May 16.—Ratification of the Washington debt settlement and arrangements to pay the war debt to Great Britain by the French government as so essential to the settlement of the franc that M. Peret, the Finance Minister, is in London today to confer with Winston Churchill, Chancellor of the Exchequer, with a view to an early settlement.

Government circles that opposition to ratification will disappear when the Chamber and Senate under stand that rejection would mean the upset of the government plans for stabilization of the franc.

While abroad Gaona visited the Holy Land and on the banks of the river Jordan knelt in prayer, offering thanks to the Almighty for his delivery from death after a twenty-year career as a bullfighter. This was one of the vows he made here several years ago before his retirement, which he carried out. The other was a visit to the pyramids in Egypt, where Gaona, his wife and children visited the great wonders of the Nile Valley. When he was graduating from bootblackening to the position of a promising bullfighter, twenty-five years ago Gaona was shown a picture of the pyramids with a group of American millionaire tourists standing at the base of the Sphinx. He remarked, at the time, "I will make money and do the same thing some time."

Strong pressure is being brought to bear on Gaona to try a comeback and return to the arena, and thousands of Mexican bullfight fans are urging him to do so, but the "Caliph of the Arena," as he is known, has so far turned a deaf ear to the pleadings of his worshippers. His fortune is variously estimated by recalling the sum of five million pesos, and he says he is content to "retain but the memories of the glories of my conquests" on the arena of Mexico and Spain.

Gaona has taken up his residence on his ranch, El Molino, in his native State of Guanajuato. He bought this property with the money which he received for his last and memorable fight here two years ago. It is his favorite of all his ranches which he has purchased with the fees which he has received for killing bulls.

FERTILIZER TRUST INQUIRY POSTPONED
BY A. F. NIGHT WIRE
BALTIMORE, May 16.—Federal Grand Jury investigating of an alleged fertilizer trust, which was to have gotten underway a few days ago, has postponed its session until tomorrow, but has set for Tuesday, May 18, a hearing on the question of whether or not the Department of Justice in its investigation should be continued.

PENNSYLVANIA IN HOT BATTLE

Primary Election Campaign Proves Intensive
Three Seeking Senatorship; Four for Governor
Wet and Dry Issues Figure Largely in Platform

PHILADELPHIA, May 16.—After six weeks of intensive campaigning, one of the most keenly contested primary election battles in the history of Pennsylvania neared its end tonight.

Most of the candidates completed their speaking tours of the State last night, returning to their homes today with optimistic reports and predictions that they would be victorious at the election on Tuesday.

Chief interest centers in the triangular race for the Republican nomination for the United States Senate and the four-cornered fight for the gubernatorial nomination of that party.

Senator Pepper, who is making the race on a "wet" platform, promising that if nominated and elected he will work for a modification of the Volstead law to permit the manufacture and sale of light wines and beer.

Senator Pepper declared that prohibition was not an issue, while Gov. Pinchot is making the fight on a "bone dry" platform. All three pledged support to the national administration.

In the Republican fight for Governor, Mr. Fisher, a former State Banking Commissioner, is associated with Senator Pepper, while Mr. Biddleman, former Lieutenant-Governor, has the backing of the Vire forces. Representative Phillips and Mr. Tener, a former Governor, are running independently. The former on a "wet" platform and the latter on a platform calling for more liberal Sunday laws.

OLD FIREMAN HONORED
ASTORIA (Or.) May 16.—E. J. Arrington, member of the Astoria fire department for forty-two years, was honored by the city, the occasion being the sixty-seventh anniversary of his birth. As the fire gone was striking sixty-seven times, Mayor O. B. Stetter pinned a gold badge on Arrington's tunic, the gift of the city. Arrington is still on active duty.

INDIGESTION

Acid Stomach and Torpid Liver of Prominent Cafe Man Relieved With Coso Volcanic Iron Water

For twenty-five years I have been identified with cafes in Los Angeles and community. As either manager or owner I directed the first Green Mill, Sunset Inn, Cafe Nest Goodwin, The Old Tavern, The Ship, Vernon Country Club and the Winter Garden. Numbering my friends by the thousands, I was constantly entertaining or being entertained at midnight suppers, where the menu consisted of well-prepared but rich and highly seasoned food. Enjoying my food and eating much more than I really should, I contracted a severe case of indigestion and suffered from acid stomach and torpid liver for years, trying various remedies and many mineral waters. Some time ago a new mineral water came to Los Angeles which many of my friends recommended. I was skeptical of a mineral water relieving my condition, as I have sold various mineral waters for many years. At last, however, I was persuaded to purchase a case of Coso Volcanic Iron Water, and after using three cases I can say with all sincerity that I am absolutely free from all my troubles of indigestion, my liver functions properly and I am in better health than in twenty years. I trust my experience will be of value to my many friends and acquaintances.

CONGRESS AIDS COOLIDGE AIMS ASKS BOTH WIFE AND DIPLOMA

President's Lead Followed Throughout Session

Revenue Law Change One of Its Achievements

Few Controversies Left and Adjournment Near

(EXCLUSIVE DISPATCH)

WASHINGTON, May 16.—Congress will close its session about a month hence after having followed the Coolidge leadership to an extent greater than that of the President's supporters anticipated. Three outstanding achievements sponsored by the administration during the five months of the session to date have been: Revision of revenue laws not only to insure a substantial cut in taxes, but making what the administration regarded as essential reforms in taxation, including reduction of high surtaxes and high estate taxes and the repeal of public utility income tax payments.

Ratification of debt-funding agreements with Italy, Belgium, Rumania, Estonia, Latvia and Czechoslovakia. Approval by the Senate of the resolution for American participation in the World Court with reservations acceptable to the administration.

Congress has also adhered to the Coolidge economy program in enacting the annual appropriation bills. The Congressional leaders have not only frowned upon any expenditures exceeding amounts recommended by the Coolidge budget bureau, but have sought to reduce that bureau's estimates when possible.

FEW CONTROVERSIES

The administration is vitally interested in several questions of legislation which will appear during the remaining weeks of the session. Indications are that President Coolidge will favor well in matters which are still in controversy. These include farm legislation which was before the House during the past week and on which final action will be taken in the Senate before adjournment, and the French debt settlement, on which both houses will be called upon to act early in June after ratification has been voted by the French Parliament.

Coal legislation is shaping up to the point which makes it probable that President Coolidge's ideas will be followed when final action is taken either in the closing days of the present session or next winter.

Leasing of Muscle Shoals to private interests as favored by President Coolidge is likely to be accomplished either before the present session adjourns or before the Congress comes to an end on March 4, 1933.

President Coolidge has had no occasion to veto any legislation during the present session, the administration influence having been sufficient to sidetrack most radical measures which it has frowned upon.

COOLIDGE HOLDS MAJORITY

The administration has fared much better than during the last Congress—when the La Follette radical group held the balance of power in both the Senate and House. The 1924 elections gave the Republicans a fairly comfortable majority in the House, but an uncertain majority in the Senate, due to the independent tendencies of a number of Republicans besides those identified regularly with the La Follette group.

The expectation had been that the administration would meet defeat on many of its most important measures. It proved impossible, however, for the Democrats and insurgent Republicans to maintain an alliance as existed in the last Congress. In most cases where a considerable number of Republicans have opposed the administration, enough conservative Democrats have come to the rescue to offset the defections.

The administration stands back of the Lausanne Treaty with Turkey, but there seems no immediate prospect of its ratification by the Senate. President Coolidge in his annual message urged the desirability of legislation divorcing the Shipping Board and Emergency Fleet Corporation, but measures revising shipping laws, while the subject of hearings, have not been acted upon in either House. Shipping legislation probably will go over until winter and may not be disposed of then.

The administration is back of radio legislation in the form in which it has been passed by the House and is involved in a controversy over its form as reported to the Senate.

FAVORS RAIL LEGISLATION

President Coolidge favors legislation dealing with the consolidation of railroads, but there seems little prospect of any action on this subject before Congress adjourns, although the Cummins bill is on the Senate calendar. The railway labor bill abolishing the Railroad Labor Board as passed by the Senate during the past week and previously passed by the House is satisfactory to the administration.

An aviation program has been developed during the session along lines favored by the administration. The commercial aviation bill has been passed by both houses. Action on a bill providing a five-year army aviation development program seems assured at this session. A naval aviation bill also is pending.

Congress has passed its first public buildings bill in many sessions and in so doing abandoned the old pork barrel system and adopted the lump sum appropriation method subject to the control of an executive department as favored by the President. Provision for the construction of buildings to house embassies and legations and other foreign agencies of the government has been made in measure enacted into law with the administration backing.

Prohibition has been one of the live issues of the session, although at no time has there been the chance of the enactment of legislation modifying the Volstead Act to permit the manufacture of light wines and beer. Legislation to strengthen the Volstead Act with a view to facilitating the enforcement of the law as it now stands has been sponsored by the administration and will come up for consideration during the closing weeks of the session.

Just when Congress will adjourn remains uncertain. The Senate has postponed until November 16, the

ASKS BOTH WIFE AND DIPLOMA

(EXCLUSIVE DISPATCH)

FITCHBURG (Mass.) May 16.—George Draper of Lynn, a student at the Fitchburg Normal School, is not going to be expelled from that institution for exercising what he considers the inviolable right of every American youth to marry when and where he pleases, without a court fight.

Matrimonial life, Draper declares, not only is likely to lose him a diploma but places in jeopardy a good job which awaits him if he can show the sheepskin which he covets. Hence he has retained an attorney who will seek a writ of mandamus in the Superior Court to enjoin Principal W. D. Parkinson of the school, the State Board of Education and Education Committee Payson Smith from prohibiting him from continuing his studies and graduating next month.

MODEL COMMUNITY PLANNED IN HAWAII

(EXCLUSIVE DISPATCH)

HONOLULU, May 16.—Residents of Ewa—about 18,000—on the ocean shore here—will form the nucleus of a model community being organized by Princess Abigail Kawananakoa, Republican National Committeewoman. Princess Abigail has leased a part of a private estate, and plans to give the new community her personal attention.

Mexicans Say Italians Have Maligned Land

(EXCLUSIVE DISPATCH)

MEXICO CITY, May 16.—Members of the Italian Commercial Mission who came to Mexico on the steamer Italia several months ago, are charged in the newspapers with maligning the nation in books which they published after their return to Italy.

Benito Mussolini is also charged with disrespect because he wrote a preface to one of these books in which he referred to Mexico in a disrespectful manner. The result has been to arouse a sentiment against the Fascist movement in Italy which has been the subject of conversation between the Italian Minister here and the Mexican Foreign Office.

J. C. ADAMS FRANKED

(EXCLUSIVE DISPATCH)

PHOENIX, May 16.—Testimonial resolutions concerning the civic accomplishments of John C. Adams, a former Mayor, have been passed by the Phoenix City Commission. Similar resolutions have been passed by the Chamber of Commerce, of which he had been president, by the Junior Chamber of Commerce and by the Arizona Hotel Men's Association.

300,000 Essex Owners Know

These Time Proven Qualities Turning
New Thousands of Buyers to Essex

This is a year of "Sixes". The trend is more irresistible than ever. Through the world's largest production of "Sixes" Essex now holds the greatest price advantage with the finest quality Essex ever offered.

These are 300,000 Essex owners. They tell you today's Essex is the best ever built. It is easy to steer, easy riding and has the running smoothness that is exclusive to the famous Super-Six motor. It is economical, sturdy and requires little service attention.

No wonder Essex is so popular, no wonder it has turned the trend to "Sixes"—no wonder it is the preferred "Six" with thousands of new buyers ever increasing its outstanding sales leadership.

ALCOHOL USERS
FIGHT GOFF BILLManufacturers Oppose Clause
Regarding PermitsUnlimited Powers of Dry
Officials FearedEarly Passage of Measure
Believed Unlikely

(EXCLUSIVE DISPATCH)
WASHINGTON, May 16.—Early enactment of the Goff bill for tightening up prohibition enforcement as approved by the State Judiciary Committee upon the recommendation of the Treasury Department appeared unlikely today when it became known that committee amendments do not satisfy industrial alcohol using interests which propose to fight the measure to the finish.

The alcohol-using groups, including drug manufacturers, wholesalers and retailers, and manufacturers of toilet articles, are up in arms over the section of the bill which gives prohibition enforcement officials the right to refuse the renewal of alcohol permits at the end of annual periods without showing cause for such action. Assistant Secretary of the Treasury Andrews asked for legislation giving such authority after he had attempted to follow this policy under the present law and had run into a snag when the United States Circuit Court of Appeals at New York ruled that he had exceeded his legal powers.

UNSATISFACTORY
The Senate Judiciary Committee in reporting the Goff bill on

LEGION MEN TO
SWEEP STREETSTask is Result of Member-
ship Contest Among
Arizona Posts

(EXCLUSIVE DISPATCH)
PHOENIX, May 16.—A large delegation of members of the Tucson American Legion post will come here Wednesday to sweep a section of the city's streets, a task following loss of a membership contest with the Phoenix post. The victory, led by Col. A. J. Dougherty, commander of the Arizona department of the Legion, all will wear whiskers, which may not be removed until the work here has been accomplished.

Friday amended the permit section in such a way as to insure a court review of both the law and the facts in case of refusal of prohibition officials to renew a permit. The court might direct the issuance of a temporary permit pending adjudication of a case. These amendments, however, do not satisfy the alcohol-using industries, who fear that an arbitrary prohibition commission might do serious damage to a permit holder without cause.

"The enactment of such a measure would constitute the gravest possible menace to the continuance of any business in which alcohol is necessarily used," said W. Crounse, Washington representative of the National Wholesale Druggists' Association, and the American Manufacturers of Toilet Articles today. "It confers upon any individual who may happen to be acting as prohibition commissioner full discriminatory power to refuse to issue or to refuse to renew any basic permit granting the right to use alcohol. Such power might be lodged with a person wholly unfit to wield it or it might be vested in a wise, conservative, experienced and honest official appointed by the President as prohibition commissioner, but occasionally he exercised by a fanatical, over-zealous and possibly dishonest subordinate acting in the place of such commissioner."

In any case, the commissioner or his subordinate could have little if any knowledge of the facts in the case but would have to depend upon information obtained from subordinates. It is lamentable fact, according to official records, that nearly 25 per cent of the prohibition-enforcement personnel have been removed from office for offenses involving moral turpitude since the effective date of the Volstead Act.

"To place any such power of life or death over the industries of the country in the hands of any one official is un-American and wholly indefensible. The statutes already give all justifiable authority to the prohibition commissioner to revoke permits where the evidence warrants; it would be the gravest public legislative error for Congress to authorize the commissioner to deprive permit holders of their right to do business upon assertions of wrongdoing based upon the evidence so flimsy that it cannot stand the light of a day in court."

The industrial alcohol using interests are not interested in other sections of the Goff bill. Some of those sections will be opposed by the Senate veto. Indications are that the bill will be passed in the Senate if it comes to a vote. The expectation is that filibustering tactics will be used to prevent any action at the present session.

SMITH URGED TO SIGN
DRY REFERENDUM BILL

(EXCLUSIVE DISPATCH)
WASHINGTON, May 16.—Approval of the bill now awaiting his signature to authorize a State referendum on prohibition at the next general election is hesitated in the opinion forwarded to Governor Smith today by twenty-one Democratic members of the New York delegation in the House.

Congressional and State assembly districts are so "gerrymandered" that a single rural dry vote offsets twenty liberal city votes and a fair test of the prohibition issue in the election of a United States Senator or Governor is impossible. The petition contends, because the Republican party, having nominated "camouflaged" dry, hypocritical candidates, hopes "to carry water on one shoulder and liquor on the other."

Senator Wadsworth, who is seeking re-election, voted for the Volstead Act and to override President Wilson's veto of it. "I am now professing to be in favor of its modification" and, continues the petition, "young Roosevelt ran dry two years ago and now intimates he is wet."

WEAR LEATHER HARNESS

(EXCLUSIVE DISPATCH)
BROOKTON (Mass.), May 16.—The Brookton division of the Eastern Massachusetts Street Railway Company, noted for its safety devices, has sprung a new one. The division employs a sizeable group of track greasers and switch cleaners and every one has been equipped with a white leather harness, similar to those worn by traffic officers doing night duty. There'll be no excuse for autoists bumping them now.

DRY OFFICE INSPECTED

(EXCLUSIVE DISPATCH)
PHOENIX, May 16.—R. E. Frith, prohibition director of the southwestern district, is inspecting the office of Deputy Director Frank M. Poole, whose resignation is to be effective June 12, next. No appointment thus far has been made to the place to be vacated.

TACOMA BOASTS CITY-FISH POND

Municipal Authorities Have Power to "Open" and "Close" Season

(BY A. F. NIGHT WIRE)
TACOMA (Wash.) May 16.—A municipal fishing pond, ten miles in length and a mile wide, stocked with millions of trout, is the city's latest recreational enterprise. The "fishing paradise" will be open to any angler who will agree to use nothing but a fly or trolling equipment. The City Council will have jurisdiction of the pond with power to declare the fishing season open or closed at will.

Winston Churchill, Chancellor of the Exchequer, in his recent budget statement, announced that in the event of such labor movement it would be necessary to revise his budget proposals, and this subject now is under consideration by the treasury. There is little doubt that some additional taxation will become necessary, but it is hoped that it will be rather in the line of readjustment of existing taxes than imposition of new ones.

In a message of thanks to the Chief Civil Commissioner, Sir William Mitchell-Thompson, and to the volunteers, Premier Baldwin reveals what great resources of strength the government had behind it in combating the general strike. The Premier said that nearly 500,000 men and women were enrolled throughout the country by the Voluntary Service Committee, of whom less than 10 per cent were actually called upon when the strike ended.

The Premier explains that it was necessary, as in the Great War, to maintain large reserves for contingencies and the government extends its sincere thanks to all, although their services were not needed.

The settlements yesterday in the printing trades did not include the London newspapers but new agreements were signed by the newspapers today which will enable a full start of the London evening papers tomorrow and the London morning papers Tuesday. Under this agreement the union concerned undertakes that there shall be no interference in the future on the part of the workers in the contents of the papers or their business management, and a special committee has been created to deal with possible disputes.

Prospects of peace in the coal fields through Premier Baldwin's proposals are hopeful. George A. Spencer, member of Parliament and principal agent of the Nottinghamshire Miners' Association, in a speech at Pinkston today declared that as to wages and unemployment benefits the government proposals promise much more than had ever been previously conceded, and he thinks the miners throughout the country might safely leave to their representatives the successful conclusion of the negotiations.

It was a regrettable fact, he added, that before the stoppage no willingness had been manifested to formulate terms and the government now is in that respect doing what should have been accomplished three or four weeks ago.

LOST HUSBAND FOUND IN ASYLUM

Wife Accuses Mother-in-Law of Plot

Robert Stuart and His Bride

(EXCLUSIVE DISPATCH)
NEW YORK, May 16.—For two weeks, while his bride, Mrs. Edna May Stuart, vainly sought to locate him, Robert Stuart, heir to \$1,000,000, who says he is the great-grandson of William Carina Stuart, partner of

the first John Jacob Astor, was locked up with the insane at Bellevue Hospital, New York. Young Stuart's release was brought about through habeas corpus proceedings instituted by the bride against Harry De Vaux, whom the victim charges is back of his incarceration at the institution of Stuart's mother.

TURKEYS SOUGHT TO FIGHT GRASSHOPPERS

(EXCLUSIVE DISPATCH)
VANCOUVER (B. C.) May 16. Unique plans for a war on the grasshopper hordes which threaten to denude the Okanagan Valley of vegetation this summer have been laid before the Department of Agriculture by the British Columbia Poultrymen's Association.

They propose to use huge flocks of turkeys to eat the insects in their early stages and so prevent thousands of dollars of damage later on. They ask the government to purchase turkeys in Alberta in large numbers and sell them to British Columbia farmers. The birds would then be herded on the range country in the Okanagan like cattle and allowed to live on the grasshoppers. It was reported, used to combat the grasshoppers, has already killed twenty head of cattle.

CONFEDERATE TWINS HAVE ANNIVERSARY

(EXCLUSIVE DISPATCH)
GRANBURY (Tex.) May 16.—W. E. and J. H. Doyle, the only known living Confederate twins, celebrated their eightieth birthday anniversary at the home of J. H. Doyle here. A large number of relatives and friends were present. J. H. Doyle is a merchant of Granbury, and W. E. Doyle, a former State Senator, lives in Teague, Tex. The Doyle twins belonged to the cavalry corps of the Army of Northern Virginia. W. E. Doyle was captured in September, 1864, and was paroled at Point Lookout in 1865. J. H. Doyle was wounded at Cold Harbor in June, 1864, and was paroled at Appomattox, April 9, 1865.

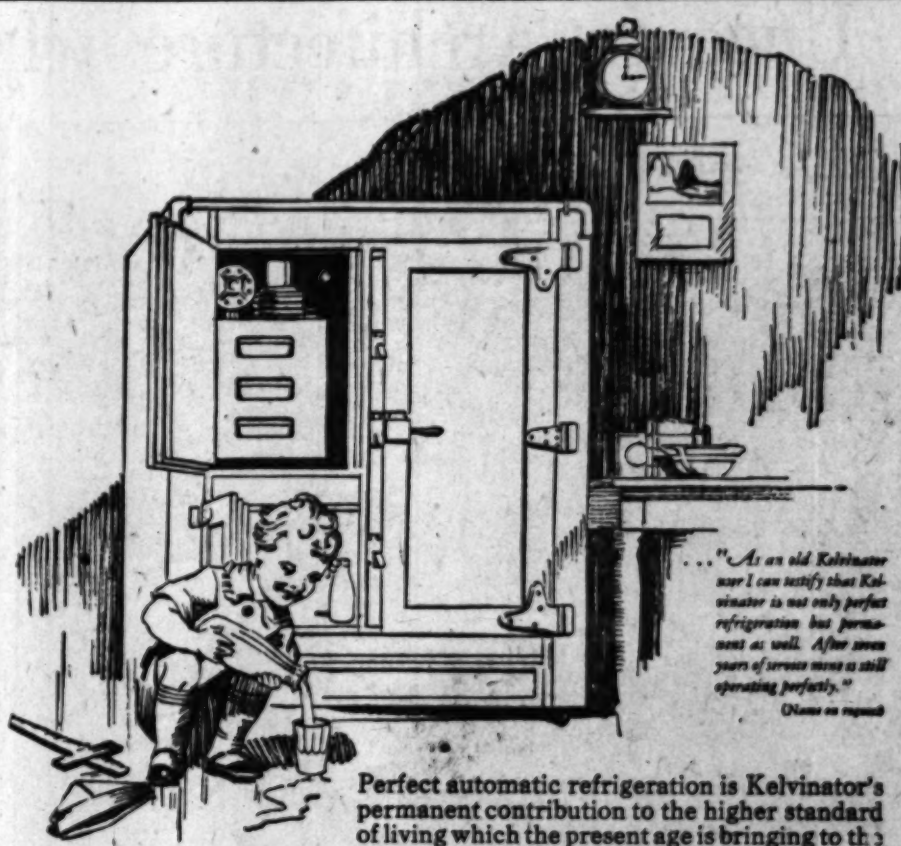

DIVORCES MATE WHO ACTS AS BOOK HEROINE

(EXCLUSIVE DISPATCH)
RENO (Nev.) May 16.—Declaring his wife insisted on acting as the militant, domineering heroine of her favorite novel, Vernon F. Guest obtained a divorce from Margaret W. Guest on grounds of extreme cruelty. He said his wife constantly reminded him of his inferiority, demanded that he obtain her permission in all things, and slapped him soundly. He said she often expressed the belief that "she was born to rule," and had a violent, domineering disposition. The couple formerly lived at Hollywood.

TEXAS OIL ADVANCED

(BY A. F. NIGHT WIRE)
LAREDO (Tex.) May 16.—By posting a 10-cent advance in the price of Mirando crude oil here Saturday, the Humble Oil Company sent the price to a new high level of \$1.25 a barrel. Renewed activity was seen for the immediate future. Humble has 200 men in the field extending pipe lines to new producing wells.

Senorita Ernestina R. Calles, young daughter of President Calles of Mexico, hopes to become a successful aviatrix.

HUDSON COACH

All Closed Car Comforts
Masterful Performance—Low Cost

Note Well These Claims
They Are Supported by
800,000 Owners

\$1379

"At Your Door"

Nothing Else to Pay

BROUGHAM - '1639
7-PASS. SEDAN - 1875

All prices include freight, tax and the following equipment:

Front and Rear Bumpers; Automatic Windshield Cleaner; Rear View Mirror; Transmission Lock (built in); Radiator Shutters; Motor; Combination Stop and Tail Light.

Lasting pride of ownership comes from masterful performance, ease of operation and maintenance, from reliability and economy.

These qualities cannot be revealed by any other test than actual performance over long periods of time and in the hands of every type of user.

Hudson holds first advantage because of its patented Super-Six—the world's most famous motor. More than 800,000 have been built by Hudson under its exclusive principle. For 11 years it has been outstanding because of distinctive smoothness, wide flexibility, power, speed, and reliability.

Hudson is easy to steer. Its power range is so great that gear shifting is lessened, and the

riding action is so well arranged that long hours at the wheel are not tiring.

Economy is found in low operating and maintenance cost.

These are the qualities that make genuine satisfaction. Upon such a chassis is mounted the coach. It gives all closed car comforts. It is sturdy, beautiful in line, and complete in every practical detail. Its sale has exceeded that of any closed car priced above \$1,000. That production has led to greater economy and much lower prices. It has permitted many improvements in chassis and body.

So today's Hudson Coach is not only the best ever built. It also is priced lower than ever before.

First Trans-Atlantic Voyage of a Rotorship was completed last week when Flettner ship Baden-Baden sailed into New York Harbor, after an eight-day voyage. The voyage demonstrated the practicability of this type of ship. Photo shows the Baden-Baden as it appeared upon arrival on this side of the (P. & A. photo.)

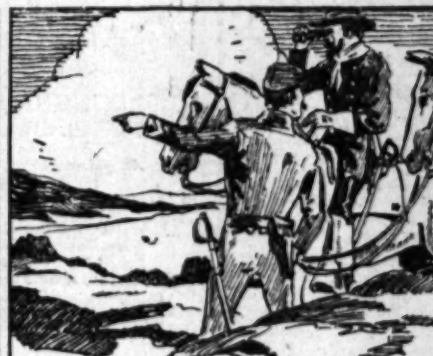

OUR HISTORY IN PICTURES

411 The "Mormon Rebellion."—(Continued)

by J. CARROLL MANSFIELD

DURING THE "MORMON REBELLION" (1857), BISHOP LEE AND OTHER MORMONS PERSUADED THE INDIANS TO JOIN THEM ON THE WARPATH AND WIPED OUT AN EMIGRANT TRAIN NEAR MOUNTAIN MEADOWS. TWENTY YEARS LATER, LEE WAS CONVICTED OF THE OUTRAGE AND EXECUTED AT THE SCENE OF THE MASSACRE.

IN THE SPRING OF 1858, GENERAL HARNEY WITH THE "ARMY OF UTAH" ENTERED SALT LAKE VALLEY. HARNEY'S SCOUTS REPORTED THAT THE MORMONS HAD ABANDONED SALT LAKE CITY.

BRIGHAM YOUNG HAD LED HIS FOLLOWERS TO SALT LAKE CITY, BUT WAS DETERMINED TO BURN THE "CITY OF THE SAINTS" IF THE SOLDIERS ATTEMPTED TO OCCUPY IT.

FURTHER TROUBLE WAS CAUSED BY BISHOP LEE, WHO PERSUADED THE MORMONS ON CONDITION THAT THEY WOULD OBEY THE FEDERAL LAWS. THE MORMONS TOOK THEM TO THEIR HOMES AND FLEW THEM AWAY IN UTAH.

MORE TO US THAN A LARGER COUNTRY

NAMES upon the books of the Security Bank are not merely material for accountants. Each name represents to us a person, and we want to make of that person a FRIEND.

The more than 295,000 depositors, doing business at the Bank's 100 locations are considered as members of the SECURITY FAMILY.

Cordial good will of customers was one of the elements through which this Bank grew great. Each patron will find, if he or she will but seek the friendly acquaintance of members of the Security force, a return of that same cordial good will.

CADET CLASS TO GRADUATE SOON

West Point Commencement to Be June 12

Week Will Be Brilliant One at Academy

Suedish Crown Prince May Review Troops

(EXCLUSIVE DISPATCH) WEST POINT (N. Y.) May 16. Brig.-Gen. Merck B. Stewart, superintendent of the United States Military Academy, announces through Maj. H. B. Lewis, adjutant of the academy, the designation of June 12, next, as graduation day for the class of 1926. At the same time, Maj. Lewis issued the complete program for June week (tentative in some respects) which will begin June 5 and extend through graduation exercises to be conducted at Battle Monument, June 12, at 10 a. m., daylight saving time.

Always a brilliant week in the annals of the academy, this coming June week promises to be more so than ever, for, in addition to the usual events always associated with this particular time, there will occur, June 7, at 2 p. m., a review in honor of the visiting Swedish Crown Prince (if he can possibly visit West Point) and the laying of the corner-stone of the new cadet mess hall at 9:30 a. m. on June 11. This latter day has been designated as alumni day. It is expected that more than ten classes, ranging between 1876 and 1921, will hold their five and ten-year reunions this year.

Among the numerous features of the week may be noted regimental parade and formal guard mounting daily at 8:30 p. m., beginning June 5; the annual West Point horse show, in the riding hall, both morning and afternoon of June 7 and 8, for the benefit of the Army Relief Society and the West Point Relief Fund; the organ recital in the cadet chapel on June 6 at 3:30 p. m.; gymnastic exercises by the entire fourth class, in the cadet gymnasium at 9:45 a. m.; the famous first class ride (participated in by all first classmen) in the riding hall at 11 a. m.; the athletic review, including the entire corps of cadets in the dress of one or another of the various athletic sports at 9:30 p. m.; and the presentation of stars to distinguished cadets at parade, 8:30 p. m., all on Thursday; the alumni exercises and review of the corps by the alumni at 11 a. m., and the graduation parade at 8 p. m., both on June 11.

Baccalaureate services will be given in both the cadet chapel and the Catholic chapel on Sunday morning, June 6, that in the Catholic chapel at 8 a. m., by Rt. Rev. Monsignor John P. Chidwick, and that in the cadet chapel at 11 a. m., by Chaplain Clayton E. Wheat.

Other events include band concerts on Sunday, Thursday and Saturday evenings; motion pictures practically every night; cadet hope on Saturday, Tuesday, Wednesday and Friday evenings. Friday's hope will be graduation hope; that on Monday being given by the officers to the graduating class, that on Tuesday being given by the graduating class to the second class. The superintendent's reception to the graduating class will occur at the cadet mess hall on Saturday and Monday will occur the intramural finals in lacrosse and baseball, and on Tuesday and Wednesday will occur games between the corps teams and the intramural champions in both baseball and lacrosse. One of the outstanding innovations will be the wearing (throughout the entire week) of gold bars and pins by all mothers, fathers, guardians or close relatives, or members of the graduating class, an idea sponsored by Gen. Stewart, superintendent. This will give to the mothers and fathers a sense of that esprit de corps that can come only to those intimately connected with the academy. It will enable cadets, officers and friends of the academy to single out, among the thousands of visitors, those whom it is especially desired to honor on this occasion of June week and graduation.

HIGHWAY SIGNS BANNED

(EXCLUSIVE DISPATCH) VANCOUVER (B. C.) May 16. British Columbia is about to launch its first systematic attempt to rid its highways of ugly signs and billboards. This campaign to prevent commercial signs from cluttering the road will be started under the new highway regulations recently announced by Hon. W. H. Sutherland, Minister of Public Works. They forbid the erection of any sign whatever on a public highway unless with the Minister's permission.

DISHWASHER WINS PRIZE FOR ESSAY

(P. & A. Photo) George Hocking

(EXCLUSIVE DISPATCH) PORTLAND (Or.) May 16. George Hocking, a student of Reed College here, who has been earning his education by washing dishes in a restaurant, has won first prize of \$1000 in a national essay contest conducted by the Chemistry Foundation, Inc., of New York. The subject of his winning essay was "The Relation of Chemistry to National Defense." Young Hocking has resigned his dishwashing job and will use the \$1000 to complete his college course.

FIVE SLAIN IN MEXICAN LAND FIGHT

Right of Exploitation on Municipal Tract Object of Clash

(EXCLUSIVE DISPATCH) GUADALAJARA (Jalisco) May 16.—Five persons were killed and the Chief of State Police seriously wounded in a clash in the State of Jalisco over the right to exploit lands of the San Lazaro ranch, located near here.

The property belongs to the municipality of Tamasopo and had been rented to persons who were exploiting it. The place was attacked by others who thought that as it was government property it belonged to anyone who might take it. A fusillade resulted with casualties. When the State police arrived, they were also met with rifle fire and the commander was seriously wounded.

NEW FIRE TEST FOR BUILDING MATERIALS

UNDERWRITERS TRY STEEL AND TILE WITH FLAME AND HEAVY LOAD

(BY A. P. MORT WIRE) CHICAGO, May 16.—The quality of steel and tile building materials to withstand fire under the same pressure to which they are subjected in a burning building are being tested for the first time at the Underwriters' Laboratories here.

The laboratories have frequently tested building materials for their ability to withstand heat but not until now has a means been perfected to test building materials for their resistance to prolonged heat under a load such as they carry as part of the walls of a building.

The laboratory workers are building a brick wall in a huge steel frame supported by girders, with a still resting on hydraulic jacks. At the same time that the wall is subjected to furnace heat the jacks put pressure on the structure. Some methods and materials of construction might make a wall which pressure could not force under normal conditions, but which would wilt under pressure when it is subjected to fire.

Because there has been no way to test building materials simultaneously for resistance to heat and pressure, previous fire tests have been regarded as inconclusive.

WOMAN SHOCKED BY CHARGED MAIL BOX

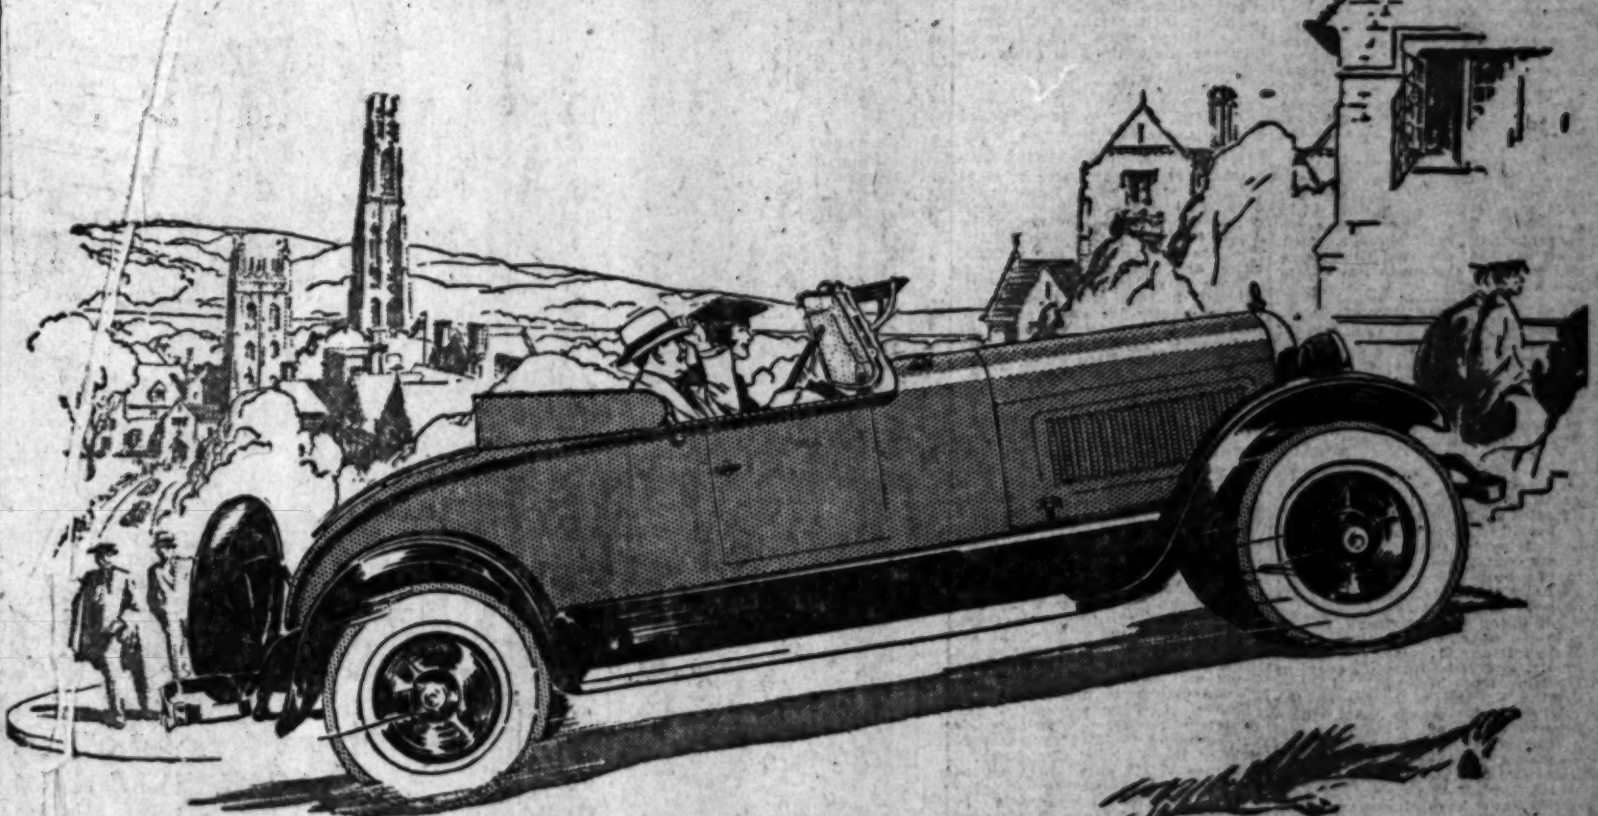

(EXCLUSIVE DISPATCH) SAN ANTONIO (Tex.) May 16. Only a few hours after Joseph Medina, 21 years of age, of this city, was accidentally electrocuted, Mrs. J. W. Price, local resident, barely escaped death when she came in contact with an electrically-charged mail box. A hand inadvertently lifted above his head caught Medina's life. The youth was laughing and talking with friends as he leaned against a telephone post. His hand touched a chain which controls the arc light and instant death resulted. Mrs. Price was posting a letter when she was knocked down to the sidewalk when she grasped the handle of the mail box. Although severely shocked and unharmed, she will recover.

IRISH RADIO STATIONS EXCHANGE PROGRAMS

(BY CABLE—EXCLUSIVE DISPATCH) DUBLIN, May 16.—The new friendly relations between Northern and Southern Ireland are reflected in the interchange of programs between the Dublin and Belfast broadcasting stations. From time to time each relay the other's programs. Dublin regularly relays London programs, the difficulties of conveyance by land and sea lines having been overcome. The London programs are popular in Dublin.

This Stunning Studebaker Big Six Roadster

The Perfect Graduation Gift

Gem of all Studebakers—\$1915

Delivered for cash in Los Angeles

By all odds the finest roadster to be had within \$1000 of its price

WHAT finer gift than this dashing new Studebaker Roadster? To be the owner of this car of surpassing beauty and performance means a world of new freedom and pleasure.

Tilt—sit comfortably in the wide front seat—two in the rumble seat beneath the rear deck.

It's built low to the road for smartness and roadability—and powered with the famous Big Six engine offered for the first time in a roadster of racy design and stream-line smartness. That means flashing getaways—a ability to maintain high speeds for hours over all roads—in fact, performance that brings a new thrill—even to the keenest roadster enthusiast. Only seven American cars equal the Big Six Sport-Roadster for rated horsepower, and they cost two to five times its price. Hence we urge you to compare its thrilling performance with that of the most expensive car.

Miles mean little to this sturdily built Roadster. Unit-Built by Studebaker to the highest standards in the industry—it will maintain its performance for years.

No "extras" to buy

The Big Six Roadster comes to you completely equipped—ready for the road as it stands. Chassis and engine are especially designed for the Studebaker-built body. Full-size ball-bearings, tires, long, resilient

springs and snubbers assure unsurpassed riding ease.

Body is finished in two tones of green-gray, in pleasing contrast to the natural wood wheels and the nickel plating of the radiator, windshield frame and rear-deck rails. Genuine leather upholstery with the seat back adjustable to the exact angle that suits the rider best.

The spark is automatically advanced and retarded by the speed of the engine. The spark lever is thus made obsolete and is replaced by the safety lighting control on the steering wheel. Equipment includes windshield wings, boot for the collapsible top, front bumper and rear bumperettes, gasoline gauge, stop light, automatic windshield cleaner, air cleaner, oil and gas filters, motometer, coincidental lock to ignition and steering controlled by the same key locking the tool compartment in the left door and the spare-tire carrier at the rear. Spare tire, tube and cover are standard equipment.

Studebaker also builds a smart Sport-Roadster on the famous Standard Six chassis at \$1800, for cash in Los Angeles. Either of these cars or any of the following may be purchased out of income at time-payment rates as low as any known to the motor world.

STANDARD SIX—Duplex-Roadster, \$1800; Duplex-Phaeton, \$1850; Coach, \$1915; Sport-Roadster, \$1905; Country Club Coupe, \$1915; Sedan (Wool Trim), \$1935; Sedan (Mohair Trim), \$1935.

SPECIAL SIX—Duplex-Roadster, \$1650; Duplex-Phaeton, \$1710; Coach, \$1715; Brougham, \$2085; Victoria, \$2035; Sedan, \$2195.

BIG SIX—Duplex-Roadster, \$1745; Sport-Roadster (4 Pass.), \$1915; Sport-Phaeton, \$1945; Duplex-Phaeton, \$2070; Club Coupe, \$1925; Coupe, \$2360; Sedan (5 Pass.), \$2190; Sedan (7 Pass.), \$2485; Brougham, \$2410; Berlin, \$2545.

9 Reasons for World Leadership

DIAMOND RUSH
MEMORY GONEAnniversary of Californian
History IgnoredGem "Discovery" Awakened
Nation OncePerpetrators of Great Fraud
Clean Up Fortune

(BY A. P. NIGHT WIRE)
SACRAMENTO, May 16.—Anniversary celebrations glorifying the gold-rush period of California's history have been numerous, but the fifty-fourth anniversary of what started out to be the great diamond rush is going to roll by this year, as it has in previous years, without any commemorative pomp or pageantry.

The reason for this neglect is that the gold rush produced a flood of real gold, while what was to have been the diamond rush blew over in a gale of laughter. Yet it made a good story in its day, and even Baron Rothschild "fell" for its glittering promises.

How the eyes of the world turned wonderingly toward California in 1872, confidently expecting a wild scramble for diamonds, rubies and emeralds that would dwarf the gold rush of '49, is told in the newspaper files of the State Library here.

BOYS CRAVE TO BE BOBBERS

(BY CABLE-EXCLUSIVE DISPATCH)

LONDON, May 16.—If the craze for bobbed hair holds out young England plans a financial harvest. Boys of 14 and 15 years of age are rushing into three-year courses given by the London County Council for hair dressers and barbers. Educational subjects and physical culture are a part of the curriculum. When the course was announced applications from parents and guardians were so numerous that classes were picked by special educational tests.

By this time, however, Arnold and Black had been paid \$60,000 for their interest, and when Arnold died in Kentucky a few years later he still had his money. Black mysteriously vanished.

So the public laughed, and what was to have been the great diamond rush went down into history as the great diamond hoax.

GEMS BY RACK
Fifty-four years ago this month, it appears, a group of San Francisco capitalists were probing feverishly the strange tale unfolded by two prospectors who had appeared unannounced in the city and quietly deposited at one of the banks a sack of rough diamonds. The seeming reluctance of the prospectors, Philip Arnold and John Black, to talk about their discovery only made the interested capitalists anxious to hear more of it. The upshot of their negotiations was an investigation of the "diamond fields" by trusted emissaries of the financiers and organization of a \$10,000,000 corporation to exploit the find.

One of the foremost mining experts in the country visited the fields, which were in Colorado, although all the excitement centered in San Francisco, and pronounced them rich beyond all computation. Diamonds were lying about on art hills, where the ants presumably had dumped them in order to get them out of the way. Emeralds lay beneath the turf and a little scratching of the earth here and there, and behold! a ruby!

Meanwhile, rough gems from the fields had been pronounced genuine by Tiffany, New York, and this, in view of the mining expert's unqualified report, whipped prospective investors into a frenzy of eagerness to buy stock in the San Francisco and New York Mining and Commercial Company, as the diamond company was called.

WEALTHY VICTIMIZED
But the organizers made it a close corporation, limited to the original San Francisco backers, Baron Rothschild and a few other wealthy men.

So the public still was waiting impatiently for a chance to participate when a government geologist changed to visit the "diamond fields" and found a few dozen rough gems had been planted there like seeds. The stones were genuine enough in themselves, but their setting wasn't.

By this time, however, Arnold and Black had been paid \$60,000 for their interest, and when Arnold died in Kentucky a few years later he still had his money. Black mysteriously vanished.

So the public laughed, and what was to have been the great diamond rush went down into history as the great diamond hoax.

COLLECTION OF OLD
ARMOR GIVEN NICEHUNDREDS OF PIECES WORTH
\$1,500,000 INCLUDE FAMOUS RAPIER

(BY CABLE-EXCLUSIVE DISPATCH)
PARIS, May 16.—The world's finest collection of ancient arms and armor, comprising hundreds of pieces and valued at more than \$1,500,000, has been presented to Nice by Felix Jonbert, noted English collector. The collection is installed in the Massena Museum in the room adjoining the famous Chapeau Jewels.

One of the rarest pieces in the Jonbert collection is the Jeanne d'Arc rapier, dating from the earliest part of the fifteenth century. The blade was found some twenty years ago in a Lorraine chateau and is believed to be the only one owned by the Maid of Orleans that has ever been discovered.

The collection of ancient armor contains many priceless pieces, notably an Italian suit dating from the time of Maximilian I, which was manufactured in Nuremberg in 1460; and the celebrated casaca, which was made for Philip II of Spain by Wolff of Landshut.

GIRLS, HERE'S YOUR MIRROR

Doctor Holds up Looking Glass to Weight Defiers for
View of Gloomy Middle Age

(EXCLUSIVE DISPATCH)
NEW YORK, May 16.—Ten million American flappers are doomed to a pimply and anemic middle life by the craze for boyish forms. They are making sure of vinegar-visaged old age.

Dr. Charles Frederick Pabst, dermatologist, professor of skin diseases on the staff of Greenpoint Hospital and medical examiner for the Municipal Civil Commission, in a warning issued tonight to America's young womanhood, declared girls from coast to coast are destroying themselves and the race in an effort to keep thin.

Dr. Pabst added: "The craze for flat forms is ruining the race. Young girls are swallowing poisonous drugs to prevent putting on flesh which nature intended they should wear. The drugs are destroying them. Their natural functions are being destroyed.

"Cancer is the nemesis of the human race at this moment. To combat inroads of this frightful scourge we need healthy bodies. More than half our girls, the mothers of the future, are rendering themselves unfit by the fight against flesh which has become nationwide. By the methods they use girls are inviting every ill to which flesh is heir.

"The drugs our young women swallow would destroy a fleet of battleships. They do not realize that the human body is the most complicated chemical factory in existence. They treat their stomachs as though they were concrete mixers. There can be but one result.

"Girls of 16 pursuing the methods of today will be shriveled old maids at 30. They will be haggard and wilted, with red noses, puffy bags under their eyes and shrunk skin."

SCIENTIST DISCOVERS
PREHISTORIC TRACKS

(EXCLUSIVE DISPATCH)
WINSTON (Ariz.) May 16.—That this region is one of the most promising of fields for the geologist was declared by Prof. H. N. Nininger of McPherson College, Kansas. He has found and taken up about forty perfect tracks of prehistoric animals, mainly imbedded in limestone near Camp Verde in the Verde Valley. One of the footprints was made by a large cat. Prof. Nininger has spent several days inspecting Meteor Mountain and states that he is satisfied that the crater was made by a meteor, a theory that has been disputed in late years.

SLAYS GRIZZLY IN EPIC FIGHT

Idaho Hunter, Ambushed by Quarry, Kills Beast, with
Knife; Near Death Himself, Victor Scrawls Note
Exulting in Triumph

(BY A. P. NIGHT WIRE)
BOISE (Idaho) May 16.—Armed with only a hunter's knife, Jim McCann, hunter and woodsman, successfully fought a duel with a huge grizzly bear in the mountain wilderness near the headwaters of the Salmon River. Details of the fight reached this city today. McCann, with his right arm almost torn from its socket and his scalp nearly torn off, is in a precarious condition, but may recover.

McCann and his brother, William, were en route to their cabin in the mountains when they came upon the tracks of a bear. Jim told his brother to stay with the pack train and he would track the bear.

After following the trail some distance McCann was suddenly attacked from behind, knocked down

"Nearly Fifty
Private Lights"

"The wires for the electric lights to be used in stores are being put in place. Nearly fifty private lights have been subscribed for which when lighted, will make Main and Spring streets grand to look upon."

L. A. Evening Express, Jan. 13, 1883.

WITHIN a few days after the electric lights were first turned on in Los Angeles (December 31, 1882), all seven street light masts were functioning nicely. The next step was to install the new light in the "stores, saloons and private residences."

To accommodate these new users of the "bloss light," as one newspaper of the day called it, a second dynamo-generator had to be installed.

This was done promptly and was the first "betterment program" of the pioneer electric company to keep pace with the demands for increased service.

For 43 years the electric division of Los Angeles Gas and Electric Corporation has promptly taken every necessary step to keep its facilities up-to-date and in condition to care for every demand made upon them.

EXECUTIVE BESTOWS RARE SMILE UPON CHEERFUL VETERAN

President Coolidge set an example for the nation on National Hospital Day recently when, accompanied by Mrs. Coolidge and Gen. Hines, director of the Veterans' Bureau, he paid a visit to disabled World War veterans at the Walter Reed General Hospital. He witnessed a wheel chair race during the afternoon. He is shown here speaking to a wounded veteran, whose good nature has brought a rare smile to the face of the Chief Executive.

Pastor's Stand in Kentucky Controversy Wins
Admiration of Horsemen

LEXINGTON (Ky.) May 16.—The Church of the Good Shepherd, "The Horsemen's Church," it is announced, has received a donation of \$12,000 from prominent turfmen of the thoroughbred horse game. The money was raised during the race meet recently closed here.

This church which is being erected is an object of aid at all times by horse racing interests. It will be completed next fall and will cost nearly \$200,000, most of which was given by horsemen. The members of the building committee are all turfmen.

The paper committee of the association, which is the executive body of the association, has been elected. The committee is composed of the following members: Mr. J. H. Baker, president; Mr. J. H. Baker, president; Mr. J. H. Baker, president.

The committee is composed of the following members: Mr. J. H. Baker, president; Mr. J. H. Baker, president; Mr. J. H. Baker, president.

BAKING POWDER
MAKERS IN WARFederal Trade Body Told of
Sales MethodsCharges Hurdled Concerning
Use of ChemicalScientists Rule Ingredient Is
Harmless

BY FREDERIC J. HASKIN

(EXCLUSIVE DISPATCH)

WASHINGTON, May 16.—Another skirmish in the baking powder war has been fought. The Federal Trade Commission and the Royal Baking Powder Company must again answer the charges of its competitors.

In 1925 the first baking powder appeared upon the market. Prior to that time the only baking powder sold in this country was the Royal Baking Powder Company's.

The new baking powder contained sodium aluminum sulfate, and it is claimed, the Royal Company immediately began discrediting the product saying that sodium aluminum sulfate was deleterious.

This campaign of the Royal Baking Powder Company against its competitors has continued to the present time.

A number of baking powder companies have appeared, and some of them have retailed by various campaigns intended to discredit the Royal Baking Powder Company. As the attorney for one of the largest of these companies says, "The baking powder business has been in a state of confusion for some time. The companies are doing things which may well be termed unfair practices, and some are perhaps even illegal."

It appears, however, that six of these companies, representing about 90 per cent of the baking powder business, have filed a petition of intervention with the Federal Trade Commission asking it to issue orders of restraint against any company which is engaged in unfair practices.

Some time ago a complaint was filed with the commission against the Royal Baking Powder Company in which it was charged that the company was using unfair methods of competition. It was charged that the Royal Company was representing to the public that the acid ingredient in its competitors' baking powders was the same as potassium aluminum sulfate, which is harmless.

The complaint further said that the Royal Company had falsely represented the competitors' products to be poisonous, that they were made from ground-up aluminum cooking utensils, and that they did not come within the pure food laws, and that they were made of the same substance which is used for styptic purposes after shaving.

It is said that the Royal Company was so successful in establishing a prejudice against these so-called sodium aluminum sulfate powders, that it is merely using the slogan "Royal Baking Powder Contains No Alum."

In 1914 the Department of Agriculture referred to the Remmen Board the question of the wholesomeness of aluminum compounds as used in baking powders. The Remmen Board has been called the supreme court of science in the food industry.

The board conducted experiments upon the use of aluminum compounds in baking powders for fifteen months. It reported that these experiments had failed to show any deleterious effects when used in ordinary amounts. It was felt that after this decision allegations that sodium aluminum sulfate powders were deleterious should be dropped.

Testimony in this case against the Royal Baking Powder Company was taken over a period of three years. One of the points brought out by this investigation was that in 1914 the executive board of the Royal Company purchased control of the Southern Manufacturing Company of Richmond, Va., which was manufacturing and selling baking powder containing so-called alum.

The former president of the Southern Manufacturing Company testified that he was attacked in and around Richmond he wrote to the Royal Baking Powder Company, asking it to reveal the ownership of his company if the attacks did not cease.

When the Federal Trade Commission heard that it had discontinued the practices of which it had been accused. After the hearing the commission issued an order of dismissal. The commission's attorneys handling this case, however, have asked that the case be reopened. They assert the discovery of certain new evidence not previously presented in the trial of the case.

The Royal Baking Powder Company is not the only one which has been complained of to the Federal Trade Commission. The Calumet Baking Powder Company, of Chicago, is alleged that Calumet has said that K. C. Baking Powder is a poor and inferior quality, carefully compounded, whereas it is a wholesome product, properly compounded of good materials.

The Calumet Company has also been accused of unfair competition by the Royal Baking Powder Company. The Royal Company says that the canvassers and demonstrators employed by the Calumet Company make comparative tests of the two powders, to the disadvantage of the former. Of course, this is similar to the complaint which the Calumet makes against the Royal.

While the manufacturers of K. C. Baking Powder have filed complaint against the Calumet Company, the latter has filed a complaint against the group of manufacturers of baking powders containing sodium aluminum sulfate. The baking powder business does appear to be in something of a muddle.

CHRYSLER IMPERIAL

"80"
AS FINE AS
MONEY CAN BUILDAnd Built for Those
Who Want Supremacy

CHRYSLER has never built a car for any other purpose than to give the public a marked improvement and a greater value.

That is why Chrysler builds the Imperial "80". You and Chrysler both know that mere years add nothing to the inherent value of an automobile name. True it's a fine thing to buy a grand old name at a high price and have your neighbors recognize that you've bought a fine car.

But it's a lot better thing to buy the finest performing, easiest riding, most luxurious car on the market—a car as fine as money can build—and have all you pass say you have the finest car and the soundest automobile investment in the world.

You know how the famous earlier Chrysler achievements advanced the whole art of building fine cars in the lower priced fields. And you know there has long been even greater opportunity for advancement in the high priced field.

The Imperial "80" brings you every advancement you have long hoped to find. If you want real supremacy in your car, don't fail to drive the Imperial "80". Isn't that a fair way to present it to you?

The Imperial "80" brings you every advancement you have long hoped to find. If you want real supremacy in your car, don't fail to drive the Imperial "80". Isn't that a fair way to present it to you?

The Imperial "80" brings you every advancement you have long hoped to find. If you want real supremacy in your car, don't fail to drive the Imperial "80". Isn't that a fair way to present it to you?

PIPE WILL DRAIN VENTURA FIELD

System Planned to Protect City Water Supply

Lloyd Well Now Yielding 4700 Barrels

Shell's Edison No. 6 Heavy Oil and Gas Producer

Oil companies operating in the Ventura-avenue field at Ventura are laying 18,000 feet of twelve-inch concrete pipe in a right of way from the field to a pump hole near the ocean for the purpose of carrying drilling water from the field to a point where it can seep into the ground without danger of the city water supply becoming contaminated by it.

The well nearest completion in the field is now the Associated Oil Company's Lloyd No. 16, on the south side of the big Lloyd lease. This hole is down 8140 feet, in an excellent body of sand, and could be brought in at any time, but the company plans to continue drilling for a week or two, at least, to test the thickness of the sand on that side of the field.

HEAVY PRODUCERS

The Lloyd No. 24, which has been on production just one month, is reported to be yielding 4700 barrels per day. The Shell Company's Edison No. 6, which came in about ten days ago, is yielding 8885 barrels per day, and putting out 1,500,000 cubic feet of gas per day.

The Chas. Olson Oil Company has cemented off its Hartman No. 1, on the north side of the field, at 4237 feet, and will make a water shut-off test within a few days. The Associated Oil Company's Hartman No. 3 has been cemented for a water shut-off at 4160 feet. The Shell Company's Hartman No. 1 is down 2300 feet. The Petroleum Securities Company's Willard No. 1, in the river bottom, got a water shut-off at 4317 feet, and is drilling ahead. The Orion No. 1 is drilling at about 1400 feet.

DOWN 435 FEET

The Milham Exploration Company's Sexton No. 1, on the far east side of the field, is down 4350 feet, and is expecting interesting developments within the next 300 feet.

BELL WILL VOTE ON ANNEXATION JUNE 18

The voters of the town of Bell, southwest of Los Angeles, will vote June 18 on the question of annexing that district to this city. The Los Angeles City Council established the date in response to a petition from residents of Bell.

MEXICO OIL ROYALTIES RATE GIVEN

Sliding Scale Provided in New Plan Depending on Output of Well

BY JACK STARR-HUNT
SAN FRANCISCO DISPATCH
TAMPIOCO, May 16.—Depending upon the production of the wells, petroleum royalties under the new legislation will be based on a sliding scale, instead of being a fixed percentage as has been previously provided.

This measure has the approval of President Calles and will be made subject of a decree in the near future, it is said in oil circles here. According to the new plan, small wells will pay a much smaller percentage than they now pay, while the larger producers will pay a correspondingly higher rate.

As a result of the new regulations, it is expected that many wells which are not now profitable producers can be made to pay and many which have been pinched down and are being stripped, will yield a better profit to the owners. The tendency of the measure is to check overproduction and to prolong the life of the wells.

Wells with a production of fifty cubic meters daily will pay a 10 per cent royalty. Those running up to 100 cubic meters will pay 15 per cent. Production up to 250 cubic meters pays 20 per cent. Five hundred cubic meters of production pays a tax of 25 per cent and larger producers pay 30.

Airplanes may be used in petroleum exploration in the Tampico and Panuco fields, according to suggestions which have been made to the Petroleum Bureau of the Ministry of Industry, Commerce and Labor at Mexico City. The bureau has been studying the suggestion that this method has been used to advantage in the United States and elsewhere in determining the geological formation as it affects petroleum probability.

Local Syndicate to Develop Ord Mining Claims

The Ord group of twenty-eight copper claims, eight of which are patented, has been taken over by a Los Angeles syndicate of bankers and capitalists, and work in its extensive operation and equipment has been started under the supervision of Capt. J. L. Carder.

Black Rock Adds Silver Glance to String of Mines

YUMA (Ariz.) May 16.—The Silver Glance property, oldest patented mine in the silver mining district of Yuma county and adjoining the Red Cloud mine, has been sold to the Black Rock Mining Company composed of Pasadena and New York interests, for \$25,000 according to announcement made by A. B. Ming, who, with Walter H. Hays and A. McPherson, owned the mine.

The Silver Glance mine was patented in 1881. Recently the original patent, bearing the signature of President Chester A. Arthur, was on exhibition here. The mine has twice been sold for metal, and during the recent period of low market price for silver and lead it was idle.

KERN FIELD ACTIVE

Drilling Started on Twelve New Wells During Week

BAKERSFIELD, May 16.—Twelve new oil wells were started in Kern county last week. The Standard Oil Company led the list with five wells, four of which are located in the Midway field as follows: Nos. 2, 4 and 5 on Sec. 21, 11-24, and No. 1 on Sec. 21, 11-24. The fifth well is the No. 24 on Sec. 27, 11-20 of Wheeler Ridge.

King G. Olette came next with four new wells, designated as Nos. B-4, A-5, B-1 and B-12, all in Sec. 21, 11-22 of the Midway. The Midway Northern Oil Company has spudded in its No. 14 well on Sec. 21, 11-23. The P. Lingo has begun drilling his No. 1-A on Sec. 16, 11-23.

OIL EXPORTS MOUNT HIGH

Nearly Quarter-Million Barrels of Petroleum Products Leave Harbor in Week Past

High mark for bulk petroleum exports in recent weeks was touched last week at Los Angeles Harbor when thirty-three tank steamers took away 2,429,846 barrels of petroleum products, mostly crude, fuel and gasoline.

Shipments to the Pacific Coast domestic trade totaled 968,225 barrels, and consisted of 653,619 barrels of crude, 205,011 barrels of fuel and 109,595 barrels of gasoline. Pacific foreign shipments consisted of 479,853 barrels of fuel.

The Atlantic Coast domestic trade called for 809,315 barrels, embracing 235,000 barrels of fuel and 388,315 barrels of gasoline. Atlantic foreign demands took 121,733 barrels, including 107,000 barrels of fuel, and 64,733 barrels of gasoline.

The week's exports were 295,522 barrels greater than the combined petroleum exports of the previous week. Bulk petroleum exports from Los Angeles Harbor for the year to date amount to 38,840,057 barrels, the shipments from January 1 to May 1 amounting to 24,180,587 barrels.

INTEREST AT KINGMAN IN NOTED MINE

Development Plans for White Hills Property to be on Systematic Lines

(EXCLUSIVE DISPATCH)
KINGMAN (Ariz.) May 16.—Keen interest attaches locally to plans made for working the famous White Hills property in modern manner, after years of leasing and of poor methods of extraction. The mine is one of the recognized great bonanzas of Northwestern Arizona, with a large production record, despite hardships of remote location and irregular operation.

It is now proposed to start at once on sinking a new 1000-foot shaft, the bottom of which, according to several veins on the incline, including the G.A.R., Gardner and Norma, each to be drilled upon the incline. By means of cross-cuts several other veins will be tapped that have been worked in the past.

The Norma has been the heaviest producer, worked under lease to the United States. The mine is now being worked by the Turner, consulting engineer.

Seven feet of milling ore is being taken from the Norma. The mine is being extended at the rate of eight feet a day each. The vein was struck at 240 feet from the shaft and is reported broadly.

Capacity of the Katherine power plant has been doubled by installation of a new Diesel engine.

Now holding and compressor equipment has been installed on the Lucky Boy and the shaft is being retempered to the 450-foot level. The mine was started toward the ledge. The work is said to be well financed.

Golden Chariot Pushes Work on Mine Property

With a force of about eighteen men on its payroll, the Golden Chariot Mining Corporation is doing a large amount of effective work in the development and operation of the gold mine in Julian, Banner district, San Diego county, six miles northeast of San Diego.

The Chariot mine, under former management, has produced 115,000 ounces of gold since 1871, inclusive. It is said to have produced 21,500 ounces of gold since 1923, inclusive, not exceeding a depth of 180 feet.

Taken over by the Golden Chariot Mining Corporation, the mine, after years ago, and placed under the management of C. A. Ferrin, a resident of the city, has been reworked. A large amount of work has been accomplished since 1923, in addition to the work of the old mine, and up-to-date mine equipment.

It required eight months to unwater the mine and to reopen the old workings. This accomplished, Mr. Ferrin found the faulted segment of the vein, opened the property to the 300-foot level, in virgin ground, and performed a large amount of lateral work, around the opening up of a considerable tonnage of milling material. The material has been put in the mill, and the mill is now being operated.

The equipment, including hoist, pump, air compressor and mill, is all electrically operated by a new power generating plant, recently installed, and it is planned to have the property on a regular producing basis in the near future.

LEASE OPTION FILED

Half Section in Poco District Near Recent Oil Finds

BAKERSFIELD, May 16.—Hermon Dumble of this city, the possessor of an option on the west half of Sec. 15, 27-28, in the Poco district, scene of two recent oil finds within a week by the Shell Company and George F. Getty, Inc., has just been filed here.

Two hundred and fifty dollars was paid for the option, and the land is a short distance southeast of the Shell strike. According to the contract Dumble agreed to pay \$25,000 for the half section.

RIGGING ASSEMBLED

Well to be Started Miles from Production in Shasta County

(EXCLUSIVE DISPATCH)
SAN DIEGO, May 16.—Capitalists have assembled material, rig builders and drillers at Taft and Bakersfield to start a well in Shasta county, the material having been shipped to Redding.

The first hole is to be drilled to at least 3600 feet, although the location many miles east of production.

ELDERLY MAN WED

KELO (Wash.) May 16.—N. E. Ervin, 88 years of age, one of the few remaining Civil War veterans in Coville county, has taken Mrs. Matilda Gilliland, 45, also of Kelso, as his bride. They were married at the home of the bridegroom's daughter, by Justice G. A. Poland, Ervin served in Ohio Infantry during the Civil War.

ALL SEAL BEACH TESTS NEGATIVE

Million-Dollar Prospecting Campaign Barren

Companies Seek Elsewhere for Indications

Drilling Started in Three Adjoining Sections

The \$1,000,000 drilling campaign which the large California oil companies have been waging in the Seal Beach district for the last three or four years, has been painfully barren of oil, but it has at least served the purpose of proving definitely where the oil is not, and to that extent, at least, has somewhat simplified the problem of further exploration in that district.

The definite withdrawal of the Shell Company from what may be designated as the central area of exploration at Seal Beach is regarded by other operators and by the Shell itself definitely condemning that particular area as unproductive. The thin and water-ridden oil sands found in the Bryant wells are generally interpreted as indicating the presence somewhere in the vicinity of a productive zone, but whether this is east, west, north or south is still to be determined.

Reorganization is reported of Western Chemicals, Inc., which is operating a sodium sulphate enterprise near Camp Verde. Its president is said to have offered to settle all indebtedness, about \$185,000, and to put \$40,000 in the treasury.

Control of the Barlow-Mascoe claims on Lost Creek has been obtained by Everett L. Ball of Los Angeles, who now has six acres of placer ground along the stream. The ground is being sampled by J. Vandervort, a San Francisco engineer, who also is studying questions of mechanical equipment. For forty years the Lynx Creek field was a producer of placer gold with utilization, for a time of hydraulic equipment.

Contract Taken for Tunnel at Comanche Mine

A contract has been awarded to W. E. Johns for 2750 feet of work in the extension of the main 120-foot working and transportation tunnel being driven in the development of the extensive holdings of the Comanche M. and R. Company on Blind Springs Hill in Mono county.

Completion of this work the tunnel will have attained a length of approximately 4000 feet, cutting the Kerrick ledge at its base and uncovering, in its course, four or five parallel ledges, which are reported to have produced millions in the past from surface workings, and at depths ranging from 1500 to 2000 feet.

VALUABLE ORE CUTS LOCATED

Calumet and Arizona Company Report Rich Raises from 1800-Foot Level

(EXCLUSIVE DISPATCH)
BIRBEE (Ariz.) May 16.—A number of ore deposits recently cut in the territory of the Calumet and Arizona Company have been found to be rich in copper. The raises from the 1800-foot level, from the Junction shaft are reported through sulphide running from 10 to 12 feet above, and while crosscuts on the same level have run about seventy feet in 8 per cent ore and fifty feet in 10 per cent ore.

Good ore showings are reported on the 2000-foot level, but no remarkable results are coming from operations on the deepest level, the 2200-foot heading toward the Campbell shaft and mine equipment. This expense is being taken care of by the principal stockholders of the company, according to Charles A. Palmer of Los Angeles, president.

The company has constructed several additional buildings near the railroad, a short distance below the portal of the big tunnel, where a thrifty mining camp has been established.

Main Tunnel of Gold Hill Mine is Nearing Goal

Word has been received from Goldfield, Nev., that the main tunnel at the Gold Hill mine of the Goldfield Development Company is nearing completion. The tunnel is in contact with the outer edge of the big vein for which it is being driven.

The tunnel is to open up a body of gold ore of milling grade estimated to contain 1,000,000 tons, the deposit being the downward extension of ore disclosed near the surface, 400 feet above, said to carry values of from \$10 to \$15 to the ton.

Further west, it is stated, several shoots of ore have already been disclosed, which, it is asserted, carry values of from \$10 to \$20 per ton.

VALUE OF MINE TO COMMUNITY SHOWN

PHOENIX (Ariz.) May 16.—The value to the community of producing mine is shown by figures of the Arizona Industrial Congress. During the first three months of this year the United Verde Copper Company at Jerome bought \$240,000 worth of Arizona goods, including power, lumber, lime, oxygen, farm products, etc. Statement is made that the Arizona goods being used in the mines in constantly increasing quantities.

ONYX MINE OF ARIZONA SHIPS EAST

Tons Buying Largely from Yavapai County Deposits; Mining News of State

PRESCOTT (Ariz.) May 16.—Large shipments of onyx are being made to a Dubuque (Iowa) factory from the Buckley O'Neill deposits at Mayer, now operated by the Yavapai Onyx Company.

The material is used extensively in the manufacture of lamps and other house furnishings.

In the Senator district, south of Prescott, W. M. Lee has cut a five-foot vein, between schist and granite porphyry, that is said to contain \$10 a ton, the ore being gray copper, glance and chalcopirite.

The Miner Mining Company is making shipments to the Humboldt smelter of ore that samples nearly 10 per cent copper, with several dollars in gold and silver. In one drift a stringer of 80 per cent boronite has been cut. The main shaft is to be deepened 500 feet. L. J. Soper is in charge of the property, which lies south of Mayer.

Reorganization is reported of Western Chemicals, Inc., which is operating a sodium sulphate enterprise near Camp Verde. Its president is said to have offered to settle all indebtedness, about \$185,000, and to put \$40,000 in the treasury.

Control of the Barlow-Mascoe claims on Lost Creek has been obtained by Everett L. Ball of Los Angeles, who now has six acres of placer ground along the stream. The ground is being sampled by J. Vandervort, a San Francisco engineer, who also is studying questions of mechanical equipment. For forty years the Lynx Creek field was a producer of placer gold with utilization, for a time of hydraulic equipment.

Contract Taken for Tunnel at Comanche Mine

A contract has been awarded to W. E. Johns for 2750 feet of work in the extension of the main 120-foot working and transportation tunnel being driven in the development of the extensive holdings of the Comanche M. and R. Company on Blind Springs Hill in Mono county.

Completion of this work the tunnel will have attained a length of approximately 4000 feet, cutting the Kerrick ledge at its base and uncovering, in its course, four or five parallel ledges, which are reported to have produced millions in the past from surface workings, and at depths ranging from 1500 to 2000 feet.

VALUABLE ORE CUTS LOCATED

Calumet and Arizona Company Report Rich Raises from 1800-Foot Level

(EXCLUSIVE DISPATCH)
BIRBEE (Ariz.) May 16.—A number of ore deposits recently cut in the territory of the Calumet and Arizona Company have been found to be rich in copper. The raises from the 1800-foot level, from the Junction shaft are reported through sulphide running from 10 to 12 feet above, and while crosscuts on the same level have run about seventy feet in 8 per cent ore and fifty feet in 10 per cent ore.

Good ore showings are reported on the 2000-foot level, but no remarkable results are coming from operations on the deepest level, the 2200-foot heading toward the Campbell shaft and mine equipment. This expense is being taken care of by the principal stockholders of the company, according to Charles A. Palmer of Los Angeles, president.

The company has constructed several additional buildings near the railroad, a short distance below the portal of the big tunnel, where a thrifty mining camp has been established.

Main Tunnel of Gold Hill Mine is Nearing Goal

Word has been received from Goldfield, Nev., that the main tunnel at the Gold Hill mine of the Goldfield Development Company is nearing completion. The tunnel is in contact with the outer edge of the big vein for which it is being driven.

The tunnel is to open up a body of gold ore of milling grade estimated to contain 1,000,000 tons, the deposit being the downward extension of ore disclosed near the surface, 400 feet above, said to carry values of from \$10 to \$15 to the ton.

MAJORS ENTER ARTESIA FIELD

Standard of California Has Scouts on Ground

Other Companies Reported on Large Leases

Trend of Development Goes to Prove Value

ARTESIA (N. M.) May 16.—The Standard of California is said to be preparing to re-enter Southwestern New Mexico, having four representatives now in the field. The showing of the Maljamar Oil Company's wildcat in Lee county has apparently convinced the major companies that production will be obtained between the well and the Big Lake field. One of the largest purchasers of prospective oil land is the Kelly Oil Company, which has checked the country to the south and east of the Maljamar test.

The Getty Oil Company has purchased 10,000 acres in a southeast trend. The Prairie Oil and Gas Company is buying royalties on thousands of acres of fee land in the same direction.

A fishing job has delayed completion of the Maljamar wildcat, the glycerine jolts having broken in the six-inch hole near a depth of 2682 feet. Two hundred and fifty feet of oil is standing in the hole, the well continuing to make an immense flow of gas. It has been blowing off for the last fifty days.

A new pool has been opened north of the Artesia field by the well of the Navajo Oil Company, on Sec. 28, 17-28. It is swabbing seventy barrels daily. It is the intention of the company to drill two more wells.

In the proven area, several discharges were registered last week. The Twin Lakes Oil Company missed the regular 2000-foot and in its No. 8, on Sec. 28, 17-28, this well offset the No. 14 of the Maljamar Oil Company, which is one of the best producers in the field.

The Dome Oil Company's No. 8, on Sec. 21, 18-28, drilled into salt water at 2770 feet and is being plugged.

The Fletcher Oil Company has a well on Sec. 4, 19-28, south of the field, and the well will be plugged back from 270 to 1820 feet. Light production having been encountered at that depth.

The Empire Oil and Gas Company is rigging up for a test on a government permit on Sec. 38, 17-27, this being northwest of the field, and the producing area.

The Fletcher Oil and Gas Corporation made a location for the No. 3, 700 feet north of the No. 1 producer on Sec. 12, 18-27. The No. 2, which was completed three weeks ago, is now yielding 1800 barrels daily, this coming from a sand encountered at 1950 feet.

NEW OIL FIELD LOOMS

Find at Depth of Seven Feet Made in New Mexico County

ROSWELL, N. M., May 16.—Fifteen miles from this city, and just east of the Pecos River, Chaves county has what appears to be an oil discovery well. It is situated on a tract of 160 acres, one day this week it pumped ten barrels of oil testing about 86 deg. gravity.

Depth of the hole is 1220 feet. The oil sand was penetrated only seven feet. It is expected that when the drill penetrates more of the sand a well good for twenty-five to fifty barrels a day may be developed.

GETTY MOST ACTIVE IN KERN OIL FIELD

BAKERSFIELD, May 16.—George F. Getty, Inc., is the most active operator in the Kern oil field, with four drilling wells and seven pumping wells.

The company has four pumping wells good for about sixty barrels each and one drilling; the petroleum Securities Company

MAY MORNING.

Petroleum Securities Company Buys Tract in Semitropic District

BAKERSFIELD, May 16.—The Petroleum Securities Company, which has been active in the Semitropic district, has announced that it has purchased a tract of 250 acres in the Semitropic district, near the intersection of the California and San Felipe roads. The tract is located in the Semitropic district, near the intersection of the California and San Felipe roads. The company has announced that it has purchased a tract of 250 acres in the Semitropic district, near the intersection of the California and San Felipe roads. The tract is located in the Semitropic district, near the intersection of the California and San Felipe roads.

Standard Forms Oil Subsidiary in State of Sonora

MEXICO CITY, May 16.—Under the name of the Standard Oil Company of Mexico, the Standard Oil Company of California, according to Mexican newspaper, has organized a subsidiary in the State of Sonora to engage in the sale of gasoline, fuel oil and lubricants in the States of Sonora, Sinaloa and Baja California. The Mexico City papers say in the organization of this company, the Standard Oil Company of California, according to Mexican newspaper, has organized a subsidiary in the State of Sonora to engage in the sale of gasoline, fuel oil and lubricants in the States of Sonora, Sinaloa and Baja California.

STANDARD DROPS OUT

BAKERSFIELD, May 16.—The Standard Oil Company has relinquished its last leasehold on the Lizzie Glide property in the Mt. Poso district. The Standard Oil Company has relinquished its last leasehold on the Lizzie Glide property in the Mt. Poso district. The Standard Oil Company has relinquished its last leasehold on the Lizzie Glide property in the Mt. Poso district.

PANHANDLE GUSHER

Ten-Thousand-Barrel Texas Well Second Reported in Two Weeks. (By A. P. MORTIMER) AMARILLO (Tex.) May 15.—The second gusher for the Panhandle field within two weeks was reported here tonight by the Phillips Petroleum Company. The announcement said that the Wittenberg well, located on Sec. 12, Block Y, Hutchinson county, was flowing at the rate of 10,000 barrels of oil a day.

FAILURE AND SUCCESS

HERE ILLUSTRATED Dean Everett Lord of the college of business administration of Boston University, has figured out that a college education's actual cost is \$70,000. "It is worth that," he said at a Cambridge lunch. "Well, asking such a question is like asking whether a country boy will succeed in the city. It all depends, of course, on the boy."

There was a boy who went to New York expecting to set the river on fire. All his family expected him to set the river on fire. There was a boy who went to New York expecting to set the river on fire. All his family expected him to set the river on fire. There was a boy who went to New York expecting to set the river on fire. All his family expected him to set the river on fire.

INCREASE IN OIL HELD UNLIKELY

Many Predictions Made on State's Output. Deep Development Opposed in Inglewood. Huntington Beach Will Not be Intensively Drilled.

The statisticians of nearly all important oil companies in Southern California have been bemoaning their heads a great deal lately in the preparation of forecasts regarding future production.

The forecast has been made that production will take a decided jump, against which is the prediction that it will remain practically as it is, without substantial variation.

The figure experts who expect an increase base their deductions upon four premises: First, the prospective development of the deep sand at Inglewood; second, the development of the deep sand at Los Cerritos; third, production in the west end of Huntington Beach; and fourth, an increase in output at Ventura.

The opposing faction admits that there are four things to be expected: first, the prospective development of the deep sand at Inglewood; second, the development of the deep sand at Los Cerritos; third, production in the west end of Huntington Beach; and fourth, an increase in output at Ventura.

There will be no development of the deep sand at Inglewood, they say, because the operators in that field have the situation under control, and are unanimous in their desire to keep the field's output down to reasonable proportions.

The deep sand at Los Cerritos will not be sufficiently productive to do more than offset the already steep decline in the shallow zone, and there will be no important production from the Huntington Beach for some time.

Huntington Beach is out of the picture, it is asserted, because, in the first place, there is every indication that it will not be intensively drilled, and if it were, there is a serious doubt that it will produce much oil, they say.

As for Ventura, while a considerable amount of work is being done, it will be within bounds dictated by the Shell Company, Associated Oil Company, and General Petroleum Corporation, and will not be more than sufficient to offset the natural decline in fields elsewhere in the State.

These are the views of experts. Last fall a similar forecast of production for the year, and for the first months into the future, worked out almost to a hair. Previous forecasts were more optimistic, and the forecasters said in January, 1925, that the State's output would be 100,000 barrels per day by the end of the year, and as a matter of fact, it was nearer 650,000 barrels.

There is one factor that the experts do not take into account, and that is the factor of new fields, which is often the governing factor in the oil business. A new field, away in the hills is likely to find a way to pop in, and then the figures of the experts are all for naught.

Making the Best of It. A clergyman called on an elderly woman who had been bedridden for some years. "Well, Mrs. Davis," he said, "and how are you today?" "Oh, pretty well, thank you," was the cheerful answer.

Ah, that's right," said the clergyman, sympathetically. "I hardly expected to find you in such good spirits, considering your age. I'm afraid I should find you downhearted."

"No, no, sir," she cried, interrupting him. "No, no, indeed, sir. I've much to be thankful for. Why, one of the other night, when that house just opposite was on fire, I couldn't sleep a wink. If you hadn't been here, I should find you downhearted."

"No, no, sir," she cried, interrupting him. "No, no, indeed, sir. I've much to be thankful for. Why, one of the other night, when that house just opposite was on fire, I couldn't sleep a wink. If you hadn't been here, I should find you downhearted."

May Offering \$500,000

Street Improvement Bonds

Issued by the City of Los Angeles and other California Cities

Yielding 7%

Free of all taxes including the Federal Normal Income and Surtax

HISTORY—Street Improvement Bonds under the various Improvement Bond Acts have been issued by incorporated cities and counties of California for over thirty years. Practically all of the street paving, sanitary sewers and storm drains have been constructed by California cities during that period under one or the other of the Improvement Bond Acts.

RECORD—A thirty-year public record and our own experience of over twenty years in buying and selling California Street Improvement Bonds, convinces us that Street Improvement Bonds, properly selected, are the best tax free investment in California.

SECURITY—Each bond is by law an underlying public lien upon a particular piece of property and takes precedence over all other liens, except current taxes. Therefore, mortgages, judgments, mechanic liens and other encumbrances immediately become subordinate to the lien of the Street Improvement Bond.

These offerings constitute one of the most flexible and liquid investments in the market. The Street Improvement Bond is a standard security with a wide and ready resale market, and has shown the minimum of price fluctuation over a long period of years. We maintain a complete service for clients which includes the storage of bonds, collection of coupons, and the reinvesting of funds accruing if desired, entirely without charge.

We recommend the current offerings for assured safety and satisfaction. Any amount from \$100 to \$100,000. They all yield 7% with complete tax exemption.

On May 15, the Rosedale test well, six miles west of Bakersfield, is going down about 1000 feet, expecting to produce a test well near 1000-foot depth. The Rosedale test well, six miles west of Bakersfield, is going down about 1000 feet, expecting to produce a test well near 1000-foot depth.

News of Ships and Sailings at Pacific Ports

[illegible]

The Pacific, Caribbean and Gulf Line freighters, which are expected to arrive here tomorrow with 500 tons of produce, came from Gulf of Mexico ports.

The Steamship Petal Loma, which was damaged by a fire at Tampa, Fla., dock last night, is to leave tomorrow for the 17th inst., to be loaded for a return voyage to Gulf ports.

The President Jefferson is due here the 23rd inst., from the Far East with 150 first-class passengers, more than 4000 tons of freight and 1000 mailbags.

The freighter Costa Keen, arriving here tomorrow from North China ports, has aboard a large shipment of oriental vegetable oils.

The ship Longview is to leave tomorrow for New York, and the Atlantic Coast Tugboat, the

TACOMA (Wash.) May 18.—The big motor-ship *Buenos Aires* of the *Johnson Line*, docked this morning to discharge a shipment of steel from Europe. Her outbound cargo taken from the local job included 20,000 tons of steel for the bridge for delivery at Tacoma and Astoria. The cargo left this afternoon for Vancouver, B. C. via Seattle.

BRIDGE—The tons of steel from *Astoria* Chile, Grace & Co., Glasgow Scotland packed at the smaller this morning.

from Rotterdam and London, was another arrival at the smaller dock, where she will load about 100 tons of copper for European delivery.

Arriving this morning the *Janu* discharged 725 tons of copper ore from California, leaving a few hours later for Seattle.

After discharging general freight from the north, the *Janu* Nettleton, which arrived late last night, sailed on her return trip to Los Angeles Harbor this morning.

SHOOTING IN HOTEL ROOM

HOTEL ROOM IS MYSTERY

*Couple Disappear After
Bullet Wounds Visitor in
Hand, Police Report*

A mysterious shooting in a room at the Alexandria Saturday morning came to light yesterday with the filing of a report by Detective Lieutenant Resell.

According to the report, a man registered as C. H. McBride of Oakland, adding the notation "own law business" at 8:36 a.m.

made arrangements for an attractive woman, who registered as 'B. Ornduff, 222 Broadway,' to be given the adjoining room, it was said. She registered at 6:44 p.m., being assigned to Room 970. He report continued.

At 8 a.m., it was stated, the clerk on duty was informed a shot had been heard in McBride's room and, telephoning concerning it,

A few minutes later, the report said, McBride had the house physician dress a flesh wound in his left hand. McBride said, it was stated, that an automatic pistol he carried had been accidentally discharged.

McBride was described as about 35 years of age, five feet nine inches tall, slightly graying hair, portly build, florid complexion. He wore a gray suit and carried a bamboo cane.

DISCUSSES RELIGION FOR UNIVERSITIES

"Religion in Our State Universities" was the topic of an address delivered yesterday before the congregation of Asbury Methodist Church by Dr. Edward Blake-man, director of the Wesley Foun-

tion at the University of California, Berkeley. Dr. Blakeman emphasized his belief that religious work in the universities should be expanded, and stated that he expected to see a growth in this work during the next few years. The speaker for seventeen years was a representative of the Methodist Church at the University of Wisconsin, and only recently was transferred to Berkeley.

 GOOD MONEY
 No One Claims \$1000 in
 Bills Because of Its
 Bad Company

(BY A. F. NIGHT WIRE)
MILWAUKEE (Wis.) May 16.—At the District Attorney's office here is \$1000 that no one claims.
The ten \$100 bills are spurned by two men in position to claim ownership. But the responsibility involved

The money was found in a drawer in a room adjoining the bar of Mike Orzechowski. In the same drawer, Carl Henning, state prohibition agent, found a bottle of liquor. Alex Kolstaba, bartender, said he had never

Orzechowski said the liquor was not his and he had no idea where the \$1000 came from.

gett is a druggist at West Seventh and South Hoover streets and a member of the State Board of Pharmacy. The child is the granddaughter of George F. Howard, president emeritus of the University of Southern California.

GOOPS!

A Daily Lesson in Manners for Children

BY GELETT BURGESS

LAUGHING AT ACCIDENTS

I saw him fall—and so did you! The other children saw it, too! Some laughed at him with mocking cries. Some ran and tried to help him rise.

Were you a Goop? Or was it said

You were kind-hearted and well bred?

HISTORIC TAVERN IN MISSOURI RESTORED

EXCLUSIVE DISPATCH

ST. LOUIS, May 16.—Invitations have been extended to a number of St. Louisans to be present the 18th inst., at the official formal opening of the historic Arrowrock Tavern at Arrowrock, Mo., near Booneville. The tavern, which played an important part in early Missouri history, has been restored with State funds and will now be open to the public. The 18th inst. has been set aside as Governor's Day, at which time Gov. Baker and former Gov. Hyde and other State officials will be present.

ADVERTISERS ON CAMPS CORVALLIS DISPATCH

A delegation from the Portland Advertising Club is expected on the Oregon Agricultural college campus for a luncheon meeting, the 22nd inst., to assist in perfecting plans for the work of the advertising club recently organized here. After finishing work here the delegation will go to the University of Oregon to assist in working in interest in an advertising club in Eugene.

GOOPS!

by Sinclair Lewis

DR. MARTIN ARROWSMITH, graduate of Whittier College, recently visiting Whittier, the North Dakota village home of his wife, the actress, Barbara, is a Public Health Department of Seattle, Wash. He is a former student of Whittier College, and a former student of Whittier College.

LEORA TUGER ARROWSMITH, Martin's wife, is a former student of Whittier College, and a former student of Whittier College. She is a former student of Whittier College, and a former student of Whittier College.

DR. IRVING WATERS, once Martin's classmate, is a former student of Whittier College, and a former student of Whittier College. He is a former student of Whittier College, and a former student of Whittier College.

Between Pickersbaugh and Irving Waters, Martin was drafted into many of the associations, clubs, lodges and "cousins" which Nautilus foisted into the Chamber of Commerce, the Moccasin Ski and Hiking Club, the Elks Club, the Odd Fellows and the Evangelical County Medical Society.

He related, but they said in a high hurt manner, "Why, my boy, if you're going to be a public official, and if you have the slightest appreciation of their efforts to make you welcome here—"

Leora and he found themselves with so many invitations that they who had deplored the dullness of Whittier, the complainers, found that they could have no quiet evenings at home. But they fell into the habit of social ease, of dressing, of going places without nervous anticipation.

They modernized their rustic dancing, they learned to play bridge, rather badly, and tennis rather well; and Martin, not by virtue and naivete, but merely by habit, got out of the way of representing the chirp of small talk.

Probably they were never recognized by their hostesses as platters, but considered a bright youth couple, who, since they were devotees of Pickersbaugh, must be earnest and forward-looking, and, since they were patronized by Irving and Mrs. Waters, must be respectable.

Waters took them in hand and kept them there. He had exhibited a kind that it was impossible for him to understand that Martin's frequent results of his invitations could conceivably mean that he did not wish to come.

He detected traces of heterodoxy in Martin and with affection, diligence, and an extraordinary heavy humor he devoted himself to the work of salvation. Frequently he sought to entertain other guests by urging, "Come on now, Mart, let's have a little of those crazy ideas of yours!"

His friendly zeal was drawn compared with that of his wife. Mrs. Waters had been feared by Mrs. Waters and her husband to believe that she was the final fruit of the tree of knowledge.

He rebuked Martin's damnable, Leora's boisterous theories of bidding at bridge. But she never negated. To have named would have been to admit that there were persons who did not acknowledge her sovereignty.

dash home and tell Dad. He'll be so tickled! No! I'll then find that Dad had made her way to the parlors and was looking at them like a wife with a new dress.

As they walked home Leora was eloquently silent. "Well, did you like my apron?" he said, after a suitable time of indignant waiting.

"Yes, it wasn't bad. It must have been awfully hard to talk to all those stupid people!" "Stupid? What do you mean by 'stupid'?" The girl smiled splendidly. They were fine.

"Were they? Well, anyway, thank heaven, you won't have to keep up this silly gossiping. Pickersbaugh likes to hear himself talk too well to let you in on it very often."

"I didn't mind it. Fact, don't know but what it's a good thing to have to express myself publicly now and then. Makes you think more lucidly."

"Oh! as for the nice, lovely, lucid politicians!" "Now you look here, Leora! Of course, we know your times and a multi, and you go to the laboratory, but I do think you must pretend to be a little enthusiastic over the first address he ever made—the very first he's ever tackled—when it went off so well."

"Was he enthusiastic?" "I applauded a lot. I thought you were terribly smart. It's just—there are some things that you do tonight; have a cold snack at home or go to the cafeteria?"

Thus was he redefining hero to husband, and he had all the pleasures of inappreciation.

The next installment of this most absorbing novel—written by the author of "Main Street" and "Babbalanza"—will appear in tomorrow's Times. Watch for it!

PLATICAS DE LOS LUNES

Por el Profesor R. Guerrero

DEL DEPARTAMENTO ESKANOL DE "THE TIMES"

Número 432

En el párrafo cuarto de la Plática 430, dice "nuestro" por "nuestro".

Ya que de relativos hemos venido hablando en estas últimas Pláticas, no quisiera dejar pasar esta ocasión sin hacer ver a mis lectores anglosajones, con la mayor claridad posible, que el uso de "lo cual" en las oraciones relativas, cuando hay que emplear "lo cual" en las oraciones relativas, es opcional el empleo de uno u otro pronombre relativo.

Comenzaremos por distinguir en las oraciones "lo cual" relativo aquellas en que dicha partícula es explicativa, de aquellas en que es especificativa. El pronombre relativo "que", nos dice el señor de la Peña en su Gramática Castellana, es explicativo cuando reproduce a un antecedente según toda la extensión que éste tiene, y es especificativo cuando reproduce solamente en parte de ella.

Cuando el "que" es explicativo, el uso de "lo cual" es obligatorio, por la doble significación de aquella frase, en que, como hemos visto, "lo cual" puede ser, o una explicación, o una restricción. En el primer caso, al paso que "ellos" hubiera designado dos oraciones que no dependían de una misma conexión algo estrecha, sin embargo de ser puramente explicativa, el uso de "lo cual" es obligatorio. En el segundo caso, al paso que "ellos" hubiera designado dos oraciones que no dependían de una misma conexión algo estrecha, sin embargo de ser puramente explicativa, el uso de "lo cual" es obligatorio.

En la Plática siguiente exponeré las demás observaciones de Bello sobre esta particular.

CO-EDS WISH TO ABANDON DUMB DATES

Questionnaires Sent Out at Missouri University Show Students' Attitude

EXCLUSIVE DISPATCH

COLUMBIA (Mo.) May 16.—University of Missouri co-eds are looking for a leader to take them out of the clutches of "dumb dates" and into the realm of petting. Such was the result of a student body survey on recreation. Recently one of Missouri's star athletes left the university to marry a co-ed. Several questionnaires were asked regarding petting. Here are some of the answers scratched vigorously on the blanks by co-eds in reply:

One co-ed out the questionnaire short by writing over the full length that she was engaged and had solved her petting problems.

On the other hand many students have replied that they are not interested in anything but co-ed knows.

As the controversy continues to blaze from both campus motor cars and the highways outside Columbia as the spring nights lend a hand.

American Plan to Study Death Rate in Mexico

NEWARK (N. J.) May 16.—Reduction of Mexico's death rate is the goal of a party of American scientists who will spend the summer in a study of that republic.

The investigation has the approval of the Mexican government and public health officials and will be directed by Dr. Frederick Hoffman, consulting statistician of one of the large insurance companies.

Mexico is reputed to have the highest death rate of any country. But, in the opinion of Dr. Hoffman, much of its mortality is within the reach of preventive measures.

SAWMILLS ORDERED TO REDUCE SMOKE

VANCOUVER (B. C.) May 16.—The City Council has given the sawmills within the city limits one year in which to eliminate the smoke nuisance. Several of the sawmills contend that the health of the city is in jeopardy as a result of the vast quantity of smoke that pours from these mills. On the other hand, representatives of the sawmill industry will cost each for the mills to eliminate this smoke.

CITY GETS MORE
THAN IT SPENDSTen Months' Receipts Placed
at \$26,819,801Budgetary Expenditures in
Period \$17,288,564Report on Finances Filed by
Controller Myers

The city government received for its support during the first ten months of the present fiscal year a total of \$26,819,801, according to a report just filed with Mayor Cryer and Budget Director Knox by City Controller Myers. The report was a comprehensive one, showing how the taxpayers' money was spent, and great credit for the report was given by the Controller to Chief Accountant Abbott who prepared it and installed accounting methods that made its preparation possible.

The report showed the total revenue of the city for the period was \$26,819,801, the principal source of which was from taxes, amounting to \$20,129,215.74. The next largest amount was from license, sales, permits and sundry sources, aggregating \$4,036,154.97.

Other items of importance were interest earned on time deposits, \$1,150,891.11; police court fines, \$996,084.69; rents from city property, \$140,493.81; and franchise revenue \$187,033.25.

Disbursements made by the budgetary departments for the ten months period were \$17,288,564, consisting of salaries and wages, \$11,491,510.74; materials and supplies and sundry expenses, \$3,048,489; land \$92,729.75; buildings \$116,617.17; equipment \$487,537.58.

THIRTY-FIVE DEPARTMENTS. These disbursements represent the activities of the thirty-five budgetary departments of the city which have for their principal function the furnishing of service to citizens.

The more important departments representing such activities are the engineering department, with an expenditure of \$5,375,528.42; consisting of salaries and wages, \$4,458,722.14; materials and supplies, \$1,551,692.49; land, \$27,954.75; buildings, \$40,234.92; equipment, \$220,214.11. The fire department, with an expenditure of \$2,574,140.89, consisting of salaries and wages, \$2,517,755.76; materials and supplies, \$143,022.56; buildings, \$88,960.34; equipment, \$125,291.55; police department with an expenditure of \$4,480,908.23, consisting of salaries and wages, \$4,022,815.95; materials and supplies, \$255,288.54; equipment, \$101,792.74; electrical department with an expenditure of \$247,000.24, consisting of salaries and wages, \$244,445.21; materials and supplies, \$694,860.53; equipment, \$7,702.45.

OKLAHOMA RALLY TONIGHT. The last meeting of the Oklahoma Veterans' Hall at 246 South Hill street, tonight. President D. C. Hendricks will welcome all to enjoy the program and join in the dancing.

SHE'LL TELL THE WHOLE WORLD
It Will be About City as Trade Center

Helen La Voy Rehearsing

THE world, notwithstanding the immensity of its scope, is to recognize Los Angeles as one of the great North American market cities before many more months elapse, according to announcement by Chamber of Commerce officials. The recognition will be obtained, it was said, by means of the Industrial and Trade Exposition for August 14 to 22 in the Al Malakiah Shrine Auditorium.

It's a large job, but Helen La Voy says the organization is equal to the task. She made her statement after inspecting the area from which representative buyers will be invited to attend the show.

With 1600 manufacturers' agents, manufacturers and general distributors invited by the chamber to join with the exposition in displaying their wares, Seward C. Simons, head of the chamber's domestic trade department, said the show will stand as the most important marketing move ever made by the city. Invitations also will be sent to the wholesalers and retailers of eleven Western States, asking them also to attend and to study what Los Angeles has to offer.

buildings, \$40,234.92; equipment, \$220,214.11. The fire department, with an expenditure of \$2,574,140.89, consisting of salaries and wages, \$2,517,755.76; materials and supplies, \$143,022.56; buildings, \$88,960.34; equipment, \$125,291.55; police department with an expenditure of \$4,480,908.23, consisting of salaries and wages, \$4,022,815.95; materials and supplies, \$255,288.54; equipment, \$101,792.74; electrical department with an expenditure of \$247,000.24, consisting of salaries and wages, \$244,445.21; materials and supplies, \$694,860.53; equipment, \$7,702.45.

FLEET AWAY
ON GUNNERY
TESTS TODAYDreadnaught Squadron to
Fire Final Practice for
This Year

The dreadnaught squadron will put to sea this morning for the final fortnight of gunnery exercises of the year. Three advanced practice, experimental and secret in nature, will be fired this week and the year will be brought to a spectacular close on the 14th inst. when the entire battle fleet of sixty-five surface craft simultaneously engages in force practice.

Today all ships will be at sea for advanced practice rehearsals. Tomorrow the U.S.S. Tennessee will attempt a new long range gunnery record when she fires her main batteries in advanced practice "A." On Wednesday, Battleship Division Three, including the dreadnaughts Arizona, Nevada and Oklahoma, will fire practice "C," approximating the repulse with secondary batteries of an enemy destroyer force attacking under cover of a smoke screen.

On Thursday Battleship Division Five, including the dreadnaughts West Virginia, Colorado and Tennessee, will fire advanced practice "B," a long range action with main batteries.

Practice runs for force practice will be executed by the battle fleet on the 24th and 25th inst. Actual firing of the exercises is scheduled for 11 a.m. of the 24th. Incomplete firings by individual ships will be fired on the 24th and 25th inst. The following two weeks will be spent in preparing for its summer cruise to Puget Sound, on which it departs June 15.

OFFICER KILLED
IN AUTO CHASE

(Continued from First Page)

According to police information, Shriner, who was accompanied by a friend, was driving a 1927 Buick sedan when he was struck by a car driven by a man who was driving a 1927 Buick sedan. The car was driven by a man who was driving a 1927 Buick sedan.

THE BOY AND THE PIN. The business man was telling a friend of the beginning of his successful career. "I got my start in life," he said, "through picking up a pin in the street. A wholesale merchant that I had asked for work had turned me down, and on my way out I saw a pin. I picked it up, and the merchant was impressed by my carefulness, called me back and made you the head of the firm."

LOS ANGELES WOMAN KILLED IN WRECK. STOCKTON, May 16.—Her skull and chest crushed, Mrs. George Person of Los Angeles was almost instantly killed and J. Tomang of Oakland, a cousin of the victim, received a badly lacerated ear, after the car in which they were driving went over an embankment near midnight on the French camp highway four miles south of here.

POPULAR HEADGEAR
FOR PHILADELPHIA[Keystone photo]
Dave F. Smith

Something unusual in the way of summer headgear for men is being worn by Dave F. Smith, Potomac of Al Malakiah Temple, A.A.O.N.M.S.

Members of the former Al Malakiah patrol, of which he was a member, presented him yesterday with a fez with all inscriptions and emblems set in brilliantia. The Potomac will wear it at the imperial convalesce in Philadelphia, June 1, 2 and 3. More than 100 Shriners have signed up to make the trip east on the Shriners special which leaves Los Angeles the 24th inst.

NOW HIS COW WILL GIVE US MILK
SANS RUM, GIN AND OTHER ILK!

Elmer Jones, a dairyman, had a cow whose name was Ann; Ann caught cold and tried to kill Elmer of her yield of milk; Elmer, full of sympathy, mixed a jolt of Burgundy gave it to the ailing cow; Straightway, she was well enough. But—er—milk, quite strange to say, had a h'igh taste next day; So poor Jones was brought to court; Where Judge Edmonds made retort; "Fifty bucks, or go to jail; Next time feed her ginger ale."

AIR SERVICE OPENS SUNDAY

Passengers to be Carried on Regular Mail Plane Line
Between Los Angeles and Salt Lake City

Aerial passenger service on a daily schedule over the Los Angeles to Salt Lake City airway will open next Sunday, according to announcement yesterday by Harris M. Hannsue, president and general manager of Western Air Express, Inc. This, it is said, will be the first time in the history of commercial aviation in America that daily passenger accommodations have been made available over an airway of similar extent, in interstate transportation or fitting into the established scheme of transcontinental travel.

Plans for the passenger service in Los Angeles shortly after 5 o'clock the same afternoon. Each plane has been fitted with accommodations for two passengers and since initial plans of the company call for transporting only seats fitted into the cargo compartment of the Douglas mail planes of the Western Air Express fleet, afford comfortable passage. It is said.

Planes on this run depart at 7:30 a.m. daily from the air mail airport on Telegraph Road, arriving at Salt Lake City in ample time for east-bound passengers to board fast overland trains. On the west-bound flight, leaving Salt Lake City at 10:15 a.m., a much shorter period.

TRAEGER TO FORMALLY ENTER RACE

Sheriff Will Announce Candidacy for Re-election at Headquarters Today

Formal announcement by Sheriff Traeger of his candidacy for re-election will be made today at his headquarters.

The department's personnel of 151 is expected to vote today, the establishment of a new honor camp, the leaving of all congestion, the expense and aiding the institution of the department for scientific crime research, and statistics.

The problem of politics in county was solved by Sheriff Traeger in 1921. It was then that the series of all county was halted by rigid enforcement of the law.

Sheriff Traeger was born in 1874 and attended the University of California at Berkeley, where he earned a degree in 1900. He was appointed deputy sheriff in 1907. In 1909 he was elected sheriff and served for two terms. He was re-elected in 1915 and 1921. He is a member of the Southern California Baseball Association and the Hollywood Athletic Club and Club of Santa Monica.

Two-Day Millinery Event to Begin Tuesday

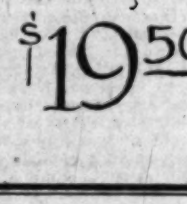

7-Piece Irish Linen Lunch Sets Tuesday (not today), Special \$5.25

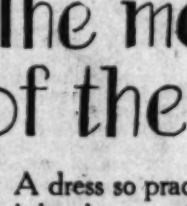

High neck

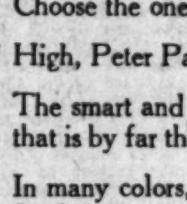

"Peter Pan"

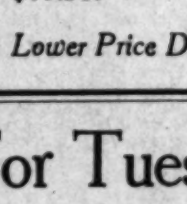

Sailor collar

V neck

Apache

Scarf neck

The most successful dress of the season—\$19.50!

A dress so practical, so good looking, so thoroughly wearable that it has been copied in six different necklines.

Choose the one that is most becoming.

High, Peter Pan, V, Apache, Sailor or Scarf.

The smart and simple two-piece dress of excellent crepe de chine that is by far the most successful dress of the season.

In many colors, many combinations. And in six smart necklines. So that you may choose the most becoming. Sizes 14 to 44—At \$19.50.

Lower Price Dress Section—BULLOCK'S—Third Floor

For Tuesday at Bullock's—New Hand-embroidered Smocks \$1.95

Tuesday "Circle Sashes" at \$5!

200 of these popular girdles of firm fancy striped fabric with one-piece panels of elastic over the hips. A model that regularly sells for considerably more than this special price... \$5.00.

They hook down the side to insure a smooth line at the waist and mold the figure. Yet they are flexible and give complete freedom. Lightly boned and reinforced on the abdomen. Six hose supports. Sizes 25 to 34 at \$5.00.

And "Formold" Brassieres with Long Lines, \$1.50! Corset Section, Bullock's Fourth Floor

For household tasks or "pottering" in the garden, these smocks are surely attractive and practical. Bullock's feels that \$1.95 is a low price for them... but all through this month (you know) Bullock's is making a special point of extra values.

Four different designs outlined by hand. Two different neck lines, round or V fashioned of good chambray in:

Pink Lavender Blue Green Tangerine Coral and tan

Tuesday (not today), \$1.95.

Note: You may order these smocks by telephone Call BRoadway 6900 and ask for Order Book.

Smock Shop, Bullock's Fourth Floor

AN announcement of unusual import. Fine Irish linen lunch sets, fully bleached, beautifully spoketiched hems... \$5.25 for 54 inch cloth and six 13 inch napkins. A set which one would be proud to give as a gift to the bride. Tomorrow, in the linen room.

Bullock's Linen Room, Second Floor

Tuesday Babies' Wear at Savings

"Every day is Baby Day at Bullock's." But for Tuesdays there is usually something special planned at Baby's Own Store (Bullock's Fifth Floor).

Dainty Hand-made Dresses, \$1.95

Exquisite little frocks with hand-made tucks, feather stitching and minute embroidered designs.

Hand-made Gertudes at the same special price, \$1.95.

Sweaters and Sacques Embroidered, \$1.95

Lovely little knitted sweaters of rayon and wool combined in just the correct proportion for summer wear. And sacques, too, that should make dainty gifts for new babies.

Knitted Capes of Rayon and Wool, \$2.95

Some embroidered in tiny rosebud designs. All firmly knitted. In lovely pinks and blues.

Baby's Own Store, Bullock's Fifth Floor

Important Services at Bullock's

IN THE glove cleaning and hemstitching section orders will now be taken for scalloping, tucking, ruffling, pinking, braiding, stitching, embroidering, piping, spotting, smocking, buttonholing, rhinestone setting and metal eyeletting. Work done by experienced operators. Orders completed in from two to four days.

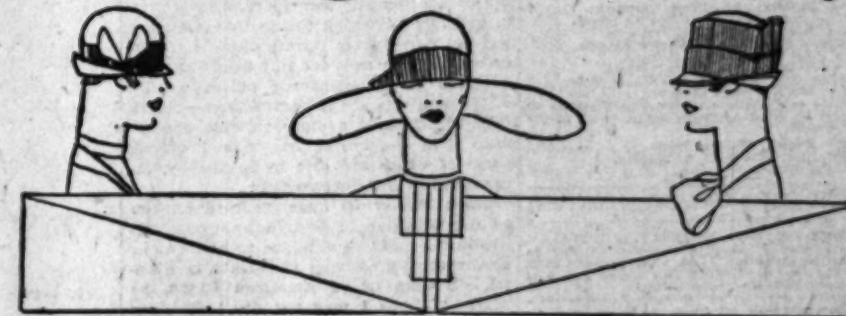

On Bullock's Street Floor

Embroidered Boudoir Slippers, \$3.25

GAY, colorful embroidery decorates the new type of Boudoir Slipper. It is an exceedingly comfortable style—with soft, flexible sole and low leather heel. It is fashioned of black satin. Lined with salmon pink, finished with silk braid. \$3.25 a pair.

Boudoir Slipper Section, Bullock's Fourth Floor

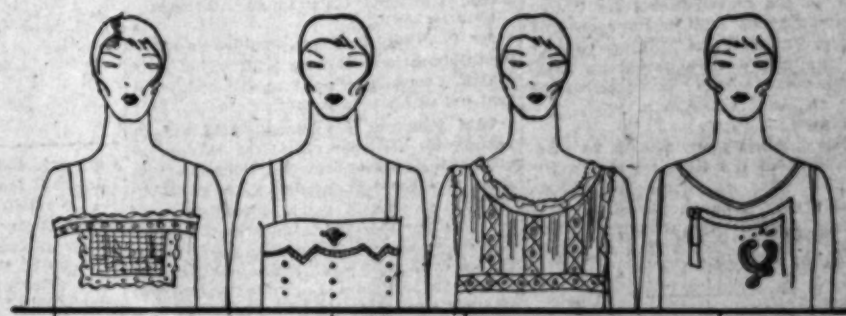

Straw Hats, Silk Hats, Felt Hats at \$10 In Bullock's Lower-Price Millinery Section

Real summery hats—brand new—just secured for this outstanding event Tuesday and Wednesday.

Large floppy leghorns, wide-brim felts, little silk hats light weight and cool and those new panama-weave hats in lovely pastels.

Almost every smart summer type one could desire will be included. Large hats, small hats, medium-size hats. All consistently priced \$10.00 in keeping with the special value aims of this popular Bullock section. Tuesday the event begins!

Lower-price Millinery Section, Bullock's Third Floor, Hill Street Bldg.

\$2.95 Chemises \$3.95 \$5.95 Gowns \$7.95

Tuesday, Six Special Savings on Bullock's Lovely Silk Lingerie!

No matter whether you are looking for a gown, chemise or step-in, you'll find it at Bullock's Monday... at a price lower than you'd expect for the quality you choose.

Silk Chemise and Step-ins at... \$2.95

Crepe de Chine and French lustre crepe chemise and step-ins; some drastically reduced; others brand new but lower than usual in price. Chiefly fluffy little lace-trimmed models.

Tailored and Lacy Gowns at... \$5.95

French lustre crepe and crepe de Chine gowns that would ordinarily be so much more than \$5.95.

Silk Chemise and Step-ins at... \$3.95

Clever little tailored types as well as the more elaborate lacy models, including crepe de Chine, crepe satin and fine radium chemise as well as crepe de Chine step-ins. New and reduced.

Tailored and Lacy Gowns at... \$7.95

Georgette, radium and heavy crepe de Chine gowns, beautifully finished. Tailored or lace-trimmed.

Lingerie Section, Bullock's Fourth Floor

Box-Loom and Jacksonette Crepe Negligees, Tuesday.. at \$3.95!

They're so good-looking, so cool and comfortable... and easily laundered. No wonder Bullock's considers it an important Tuesday feature when negligees like these are \$3.95.

Some are edged with cream Val. lace. Others rather tailored. And the colors are so good.

Rose, blue, orchid and coral.

A real summer negligee at a decided saving.

At Bullock's Tuesday, \$3.95.

Section of Leisure Robes, Bullock's Fourth Floor

Methodist organizations in Chicago is housed in about the finest and statelyst business block in town. Now another one is embarking on a \$3,000,000 building venture in which the church will be connected with one of the largest apartment-houses in the country. There will be 1000 rooms, single or in small suites, and the rent of no room will ever be more than \$7 a week. At that rate young workers may find excellent lodging within their income. The church senses that it is thus doing good in a practical way and thereby extending

man power. From an industrial and economical point of view the French are in a much better position than the Germans. Each country can support about 30,000,000 population with the products of its own soil. France produces enough each year to supply its home consumption and a surplus sufficient to feed 10,000,000 people. Germany, on the other hand, possesses at least 15,000,000 more than it can feed with the products of its own soil. It must bring that much food in each year from abroad or starve.

sons. He was hated by the South and suspected by the North.

Devotion for him at this hour is beautiful, indeed; but it seems a trifle belated. There is none so poor to do him reverence: there was none to uphold him in his high endeavors.

Wendell Phillips said, "He grew because we watered him." How Wendell Phillips and even Horace Greeley criticized him and watered him with his own tears!

Human nature is a queer combination of reverence and cowardice. When he needs

food and raw or freshly cooked provender, side by side. Those raised to maturity on the underdone fodder had twice the weight and strength of the animals brought up on the stuff that had been long cooked. In spite of Prof. Friedberger's opinions there is a feeling that cooking is a matter of taste and the individual. It would be a crime to put the world on a single diet.

FROM POLE TO POLE
Capt. Amundsen has both the North and South Poles to his credit. He must

Correct this sentence: "The boss is out of town and the team plays at home," said he, "but I'll work."

Never waste anything—not even advice.

A good many roads to wealth lead to the penitentiary.

It's better to be in poor circumstances than in poor health.

It's more important to guard your health and honor than your money.

like the strongest pipes you melted and use anglemore of royal condensation. They're of nobody, and always have been. None of them would talk. By a President as not and pass the time of day him and give him their community history. The President will have a time in the Adirondacks! almost impossible to match like if you are buying more

NAMING OF SHREW—A TRAGEDY

Scene Laid in Divorce Court—Time Recent—Enter Husband, Charging Wife Sent Him Note Signed Xanthippe
Telling Him to Leave—Soft Music—Curtains

Whether or not Mrs. Ella Mae Xanthippe, read one of these epistles, Lettow related.
As for sleeping, in the Lettow house, such sleeping as there was got itself done exclusively when Mrs. Lettow was sleepy, the complaint set forth.
"Wake up and talk to me. If I can't sleep, you can't," his wife was wont to remark firmly, at such hours as 3 a.m. Lettow said.
His complaint was prepared by a woman attorney, Priscilla Randolph. The couple lived at 1520 Curson avenue, Hollywood, until their separation March 25, last, according to the pleadings.

From 8 to 10 p.m. one complete in vocal and instrumental selections of the highest standard was given by the regular Sunday afternoon program under the joint auspices of the Masonic Lodge and the State Grand Lodge of Masons was featured by the appearance before the microphones of Perry W. Weidner, president of the United States National Bank, and a national figure in banking circles, in an address of deep interest.

Reynold E. Blight, editor of the Digest, giving another of his weekly discourses.

Directed by Lillian Martin, formerly associate editor of the Masonic publication, an excellent musical program was given by an ensemble composed of Earle Lawrence, Phillip Riley, H. Riley, Morgan Ralston and E. Riley, with Adeline Marble Aspinall, Hana King Custer and Basile Lant as soloists, and Alma Toll Kiefer as accompanist.

A portion of the talk on Masonry by Mr. Weidner was as follows: "Real Masonry is practical. A Masonry that exhausts itself in theory and speculation, that over-emphasizes ritual and ceremony, that is concerned about historical and traditional minutiae, but forgets that Masonry gives a rule of life and a standard of conduct, fails to appreciate the true significance of Freemasonry."

"Philosophies, symbols and rites are no more than guides and the great lesson of Freemasonry are timeless, however imperfectly they are or beautifully exemplified. If they are sown on deserts and no application is made of them."

"Of what worth is it to say that the lessons of Masonry have made me a better man, if, in my daily life, I do not practice its great teachings?"

AWAKEN BETTER INSTINCT
The teachings of Masonry should awaken the finer and better instincts of man; they should arouse in him a keener sense of right and that element alone should set him out conspicuously among his fellow-men.

"As Masons, collectively and individually, we will always suffer the criticism of other groups. That others differ from us in opinions, is to be expected and is natural. But it is not the signal for combat. Ours should be a constructive course, with plans and policies that will offer a higher, more consistent and better solution of problems concerning us than is offered by others."

"We should avoid controversial matters and go on calmly with our labors, continually striving to make conditions better, not only because we are, Masons but because we are good citizens, better citizens, perhaps, because we have had opened to us the great teachings, tenets and philosophies of our time-honored fraternity."

In conformity with its custom, the lower studio today will again observe its weekly silence, closing the microphones after the noon concert by the Piggly Wiggly Girls trio: Roger Neal, ukulele and song; and James Nell North, tenor.

Silent balance of day.

Home Campaign
for Sheriff to
be Begun Today

Campaign activities will begin today in behalf of the candidacy of former Chief of Police Home for Sheriff at the primaries August 31. Temporary campaign headquarters will be established by Capt. Home in the Ferguson Building.

An address will be made tomorrow by Capt. Home before the South Side Civic League, and on Wednesday the candidate will talk at a luncheon meeting of the Lions Club at Venice. Other speeches for the week are being scheduled by the campaign committee.

Organization plan are being completed for many Home-for-Sheriff clubs to be established in various cities and towns in the county. The local central committee of the Home organization will coordinate with these organizations in conducting the campaign.

Flyer Escapes
as Plane Falls
at Venice Beach

By a "Times" Staff Correspondent
VENICE, May 16.—A close shave with death by Jimmy Crossman, former army aviator now conducting a flying field on Leona Boulevard near Washington Boulevard, and a passenger in his airplane, thrilled Sunday morning crowds on the beach here.

Engine trouble developed while Crossman was flying with Elmer Rodriguez, 414 Highland Canal, Venice, and when ten feet above the beach, while planning for a landing, the airplane tipped and fell just within the surf line on the shore.

Waves added to the damage to the craft, but both pilot and passenger escaped unharmed. The mast of the barge, Bacchus, ashore just south of Sunset Pier since the recent heavy storms cast it adrift, was barely missed by the airplane. One wing of the ship was entirely wrecked.

WESTLAKE MERCHANTS
TO HAVE OPEN MEETING

The Greater Westlake Business Association will have an open meeting Wednesday, with noon luncheon at the Elks' Temple. Guests of honor will be members of the City Council, Mrs. Mabel Socha of the Park Commission and Mrs. Otto Kahn, chairman of branch libraries, besides representatives of several improvement associations. Luncheon will be served in the ladies' dining-room to 100 guests and inspection of the temple will follow. Ernest Douglas, composer and organist, will preside over the temple oratorio and Roscoe Bell, tenor of Calvary Church, Pasadena, will sing. Both will be guests of Leopold A. Ponz, who will preside over the entertainment feature. Paul D. Robinson, Past Vice-President of the Elks and past-president of the Westlake Association, will give a greeting to the guests.

POSTER CLASS OPENED

A short-term unit in poster work, its design and lettering is being offered by Manual Arts Evening High School, Forty-second street and Vermont avenue, Tuesday and Thursday from 7 to 9 p.m. The drawing class is offering a short-term of work for the remainder of the school year in which new students may enroll at the present time. This class meets on Monday, Wednesday and Friday from 7 to 9 p.m.

SOCIETY

BY JUANA NEAL LEVY

As spring makes its way northward from the shores of the Mediterranean, it carries with it the tide of travel. The Riviera is rapidly being deserted. Just now, many of those who experienced the gay season in Cannes, Monte Carlo and Nice are resting up in the Italian lake country, Switzerland. The cures at Vichy or Aix-les-Bains before going on to Paris and London. The German resort season and its many "bads" is nearing its own, aided by the pre-summer tourist invasion. Carlsbad hotels have opened with the largest advance bookings in years. Quite a few Californians have been taking the tour of German resorts and towns of historical interest during the past fortnight. Nuremberg city of medieval castles and ancient streets, received visits from Gerald A. Skinner of Los Angeles and Philo Kirkham of Riverside, both of whom stopped at the Grand Hotel. Miss Blair Thompson of Pasadena, and Miss Jane Catherwood of Los Angeles, who have been visiting along the French and Italian Riviera, were recent arrivals in Genna, stopping at the Hotel Isotta. M. S. Rice, also of the Crown City, has been a guest at the Hotel Savoy in Genna. Mr. and Mrs. Alfred H. Goldstone of Hollywood and William Llewellyn of Los Angeles, are among the guests at the Savoy West End Hotel in Carlsbad, Czechoslovakia. Mrs. A. L. Verner of Los Angeles, was a passenger aboard the United States liner George Washington on its most recent trip to Europe. Mrs. Verner landed at Cherbourg and thence to Paris. Mr. and Mrs. Chalmers Myers have been passing several days in des Isles Borromees, near, and will

pass the summer in Stockbridge, Mass. Mr. and Mrs. G. H. Biddell and Mrs. Helen S. Biddell of Los Angeles, have arrived in Montreux, Switzerland, for the spring season there and are staying at the Montreux Palace Hotel. Californians who have registered at Paris hotels during the past fortnight include from Los Angeles: Mr. and Mrs. John Lawrence Smith, at the Regina; Mrs. B. William Thomas and Everett S. Gardiner, also at the Regina; Douglas Hamilton, Mrs. Mary M. Dunn and J. B. Kidd, at the Majestic; Theodore Plummer and Mr. and Mrs. Roderick Burnham at the Savoy; Mr. and Mrs. J. H. Giles at the Metropolitan; Miss Ellen Mead, Mrs. Florence Mead and Miss Gertrude H. Weiler at the Regina; Mr. and Mrs. George C. Anderson, H. D. Stackat, the Continentals; Mr. and Mrs. Henry Sanders at the Mont Fleur, and Mrs. Mary Hubbard Graces at the Maurice. From Pasadena are Mrs. John L. Martin, at the Regina; Mr. and Mrs. Harrison M. Snider and Mrs. Harriet Snider, at the Majestic; Mrs. Anna Crowell Parsons, at the Regina. From Santa Barbara are Mrs. Winifred MacLawn at the Hotel de Ville, Mrs. Paul McCool at the Hotel de Ville, Mrs. Beatrice L. Massey of Santa Barbara and Mrs. Richard R. Ruck of Coronado at the Brighton. Mr. and Mrs. John T. Cooper of Rosemead avenue, who, with their children, Harry, Brand, Phyllis and John Dean, sailed several months ago for an indefinite sojourn in Europe, are enjoying a delightful sojourn in Venice, after a visit in Rome and Naples. Pompeia and Sorrento, taking the motor boat to the Blue Grotto and visiting Mt. Vesuvius. After ten days in Venice they will motor north and on to Paris.

Delightful Affairs—Leslie Curtis and Grace Wilcox entertained Thursday evening at the home of Mrs. A. L. Kistelman, 400 South Rosemead, for a buffet supper for a group of newspaper and magazine writers, the special guest of honor being Grace Frye, who is leaving for the 21st inst. for New York City.

A witty program was given by several of the talented guests among those included were Mary Holland Kincaid, Prudence Penny, Alma Whitaker, Mrs. Nye, Katherine Lipke, Barbara Miller, Caroline Reynolds Walker, Caroline Galbraith, Ann Myers, Helen Roberts, Frances Moran, Ellen Hennessy, Flora Smith, Ruth Dennen, Estelle Lawton Lindsey, Ruth McClintock, Eleanor Howes, Eleanor Barnes, Jessica Finley, Lyle Rooka, Jean Ross, Louise Fazzenda, Frances Agnew, Florence Ryerson, Elizabeth DeJean, Grace Bush, Sonia Poushkaroff, Lillian Powell, Isabel Percival, Ida Koverman, Judie Bullock, Ann Austin, Madeline Ruthven, Winifred Dunn, Elizabeth Reardon, Pearl Hall, Doris Anderson, Agnes Edwards, Nell Martin, Idah McGlone Gibson, Lannie Haynes Martin, Myrtle Gebhardt, Kappie Crawford, Florence Pierce Reed and Gladys Crail.

At Seaside Club—Mr. and Mrs. W. Y. Thornbury of Ocean Park entertained last Saturday evening with a dinner-dance at Club Casa Del Mar, the guests, who included friends from near-by cities, were Messrs. and Mrs. J. G. Braun, J. Edgar Brown, Percy Brown, A. L. Bryant, J. H. Blanchard, E. B. Conliss, E. E. Campbell, H. J. Clark, J. J. Doyle, George Franklin, Leonard Ford, C. D. Francis, Fred Finch, Warren Hilton, Arthur Jackson, Robert Jarvis, Harry Jackson, H. I. Lee, Herman Michel, Fred Finch, E. P. Nittinger, W. H. Parks, Frank Prior, Claude Parker, D. A. Pascoe, C. W. Rogers, S. S. Rapp, A. F. Snel, Irving Smith, Fred Wilson, H. M. Wells, George Wade, J. C. Williamson, Charles C. White, A. Stanley White, Dr. and Mrs. H. W. Levengood, Dr. and Mrs. Robert O'Neal, Dr. and Mrs. Byron Palmer, Dr. and Mrs. W. H. L. Symington, Dr. and Mrs. C. P. Thomas, Dr. and Mrs. F. G. Wagner, Mrs. Beckton, Charles Brown, Mrs. Lillian Fraser, Mr. and Mrs. J. F. Ranney, Mr. and Mrs. D. L. Thornbury of Oakland, Mr. and Mrs. J. O. Youngfellow, Los Angeles, and J. T. Warren of Honolulu.

Honors Parents—Mrs. L. H. Fahrney of the Gaylord in Wilshire Boulevard entertained with a charmingly appointed dinner party at the Biltmore Wednesday evening, a dozen guests being hidden to meet her father and mother, Mr. and Mrs. I. M.

RASPBERRY JAM
Pick and weigh the raspberries, place them in a large covered jar, add the juice and cook gently for one hour, then strain through a fruit press or strainer.
Measure the juice and to each pint allow three-fourths of a pound of sugar. Boil for twenty minutes, then add the heated sugar and boil for five minutes longer.
Pour into glasses and seal.

BEEF HASH
Thinly chop two shallots. Melt a tablespoonful of butter in a very small sauce pan over a slow fire. Add the shallots, cook five minutes and add it to the following ingredients: Cut into very small dice, say two cupfuls of boiled beef, liver, superb, fat, skin and gristle removed; also nearly as much cold potatoes boiled or baked the day before. Season with a teaspoon of salt, and one-third teaspoonful of fresh ground pepper and powdered sweet thyme. If thyme is not available, use either sage, nutmeg or mace. Mix altogether. Melt in an omelet pan set over a moderate fire three tablespoonfuls of clarified dripping or butter. When hot arrange in the hash mixture. Cook until browned underneath; turn over. When again browned underneath, fold, shaping it as an omelet. Invert on a serving dish, a hot serving dish and garnish with parsley.

SPRING LAMB WITH MINT SAUCE
If the hindquarter is used be sure part of the leg, bone hip and chine bone are removed. Only leave a bone in the leg. If fore-

FASHIONS & FOIBLES

by Shirley Sharon

6515

With feminine inconsistency, an age which detaches things and demotes grand duchesses raises a fashionable altar to the princess line.

Women who have been congratulating themselves on the departure of the narrow sheath now find that they must remain as slim as ever if they are to wear the new princess styles, with their suggestion of fitting and the vague but unmistakable outlining of the figure underneath. The effect is so delightful that it's worth suffering for the slender figure with the bell-like flare at the hem. The flounce permits one to use two materials—crêpe Roma in the princess upper part and chiffon velvet or satin of the same color in the circular, all-around flare.

STRAWBERRY MOUSSE
One cupful crushed strawberries, one teaspoonful lemon juice, one-fourth level teaspoonful salt, three-fourths cupful sugar, two cupfuls stiffly whipped cream. Crush the strawberries after they have been washed and hulled. Add the lemon juice, salt and sugar, mix well, and let it stand in a very cold place for ten minutes. Add the stiffly beaten whipped cream.
Pour into an ice-cream mold, which has been moistened with cold water. Have the mold full to overflowing. Fit the lid tightly in place over a piece of waxed paper. Pack in equal parts of salt and ice and stand for four hours. The ice mixture should extend at least four inches under, above and around the mold. To unmold, dip the mold in hot water for a second and turn out onto a chilled platter.

HOUSEHOLD SUGGESTIONS

Common Salt
Salt will make whitewash stick. Salt on fresh ink stains will help in removing the marks. Salt will revive a poor fire if thrown directly on the coals. Salt thrown on most will prevent it from making a stain on the rug or carpet. Salt and water solution is an excellent gargle and inhaler for colds in the head. Salt thrown on the carpet before sweeping will brighten the colors immensely.

Fresh Meat
Meat should never be placed in the ice compartment of the refrigerator. Ice always draws the flavor out of meat. Place the meat directly below the ice chamber on a plate and cover with a piece of waxed paper.

Put Them Away Carefully
The winter hats and trimmings that are to be saved for next season should be put in boxes lined with newspapers and sprinkled with camphor. Moths can be just as destructive in hat boxes as in trunks and chests.

DISEASES

If you are in pain, sick or suffering from any acute or chronic disease or ailment, no matter how long you have suffered, regardless of how long standing. If the usual methods have failed to relieve you, find out for yourself if this new wonderful discovery, "Endo" Electro-Magnetic Circle.

In conjunction with our special Biological Diet, Personal Hygiene and system of Health Service will bring you the relief, the same amazing results that it has brought to thousands of others. Let us give you a free treatment at our laboratory or in the privacy of your home without obligation on your part.

Construction of New Dairy Products Plant Under Way

Artist Depicts New Creamery Development

Above—Bird's-eye view of future plant to be occupied by Adohr Creamery Company and below, the new creamery building.

ADOHR EXTENSION PLANNED

Creamery Begins Construction Work on First Unit of Ambitious Building Program

Announcing a program of expansion involving the expenditure of a large sum in buildings and equipment, the Adohr Creamery Company has begun the construction of the first unit in a distributing and pasteurized dairy products plant which will set another milestone in Los Angeles industrial progress. The creamery is being built on a twelve and a half acre site at the corner of La Cienega Boulevard and Eighteenth street.

Investment in the first unit of the plant, now nearing completion, is said to be over \$500,000, and includes a main building devoted to pasteurized products, refrigeration, offices and laboratories, which will be equipped with the latest and most modern machinery for handling milk on a large scale. Two large auxiliary buildings will house the automotive and delivery equipment. With three shifts of men and a twenty-four-hour schedule the work of finishing the buildings and installation of machinery is going forward rapidly, and the owners expect the plant to be in operation early in June.

Keeping pace with the rapid industrial development of Southern California, the Adohr organization has planned its present extension to take over the retail delivery of its dairy products in Los Angeles. The Adohr Stock Farm on Ventura Boulevard has long been known as the home of the largest herd of Guernsey cattle in the world, and the certified milk produced and bottled there has won wide recognition for the high quality of Southern California's milk supply, by the blue ribbons and first awards it has received in national milk-scoring contests in all sections of the country.

Although identical in ownership, the Adohr Creamery Company and the Adohr Stock Farm are separately incorporated, and the latter will act as the distributing agent in Los Angeles for the milk produced at the farms, as well as processing a complete line of pasteurized milk products which will be carried directly to its customers by its own retail delivery system.

The Adohr interests are owned by Merritt H. Adamson and R. H. Adamson. In commenting on his company's expansion, Mr. Adamson said yesterday:

"The location of our new creamery plant begins the development of a section of Los Angeles hitherto unopened. The territory lying between Los Angeles city proper and the beaches is destined to become the home of a large part of Los Angeles' second million of population, and we are placing a new manufacturing enterprise in this territory which will distribute over the great metropolitan area of Los Angeles from a point toward which the center of population is moving."

"I believe it is only by far-sighted planning that our company, or any Los Angeles organization, can hope to keep up with the rapid growth of our city, and we are preparing to build and expand to our utmost capacity so that we may go forward hand in hand with the development of Los Angeles."

ESCAPED PRISONER CAPTURED

Long Beach Jail Inmate Who Assaulted Keeper in Break Taken Here

Surprised at the home of a friend at Concord and Barlow streets, Abe Rubin, 33 years of age, who escaped from the Long Beach jail, where he was serving a long term as a bootlegger, was arrested last night and lodged in the City Jail. Rubin will be returned to the beach city jail.

According to Officers Gorman and Trainor of the Boyle Heights station, the arresting officers, Rubin declared his break for liberty was made because Long Beach jail officials had treated him unfairly by not making him a trustee. He also said that he will make another attempt at liberty when he is returned, according to the officers.

When Rubin escaped he could have liberated every prisoner in the jail. However, he chose to make the dash to freedom alone. Rubin, who is 5 ft. 11 in. tall and powerfully built, was waiting at the door of his cell at 8 a.m. when the night jailer, J. A. Maganety, and Walter Heck, a trustee, made their usual morning round to collect the blankets from each cell for airing. When Maganety opened the cell door he found Rubin waiting for him. Rubin, who was armed with a knife, threatened the officers, ran out of the jail to the roof of the City Hall and yelled for help, but could not make himself heard. Rubin took Maganety's keys and locked the jailer into his own cell, then used them to free himself at the remaining doors and descended seven flights of stairs to the street. He left the keys on the stairway.

The trusty went around the edge of the jail and reached Maganety's place of confinement and obtained the jailer's police whistle through the bars. His blasts aroused the alarm at the headquarters, a block and a half away, who in turn roused the police. They found the keys and released the jailer.

Rubin was sentenced in January to serve 120 days in the Long Beach jail, after which he was to serve 300 days in the County Jail. When arrested at the headquarters, a block and a half away, who in turn roused the police. They found the keys and released the jailer.

JUNIOR ORCHESTRA DELIGHTS AUDIENCE

Elementary Schools Represented in Remarkable Showing of Talent

BY IRABEL MORSE JONES
One-tenth of the Junior Orchestra players of this city gathered together Friday night to the number of 142, and played for a capacity audience at the Philharmonic Auditorium. Out of 2400 potential orchestra musicians this group of youngsters from 5 to 14 years of age, most of them about 7, were chosen to represent the elementary schools of Los Angeles and their performance honored the orchestra department and its directors: Jennie L. Jones, Mary B. Lodiow, Alma L. Stickle, Lorna Reavis and Grace M. Dering.

The orchestra consisted of 117 violins, ten cellos, seventeen flutes, twenty-three clarinets, L. horn players, nine trombones, five bell players, eight drums and ten pianists, all of whom showed the most perfect composure on crowded stage and the most fascinating indifference to the audience. The orchestra was led by their necks on the stands when they were not in use and frankly bored when only the wind instruments were playing. A solo passage for bells interested them immensely, however.

The director took turns conducting and the response and precision of these youngsters was nothing short of amazing. Even the bowing was fairly uniform and the general intonation was surprising, considering the fact that they did not know listeners by one bit of tuning between numbers.

After this the story turns into a program devoted to child-interest, such as the fine spirit of her musicianship is itself a lovely and childlike thing. Jones and her assistants have by patient work and unusual ability, patients and unusual ability of the lower grades to a perfection that is attracting attention all over the country. More success to them.

TWO FACE CHARGES IN GUN DRIVE

Brothers Arrested in Police Campaign to Rid City of Undesirables

Arrested in connection with the police drive to rid the city of gunmen, Frank Corneo today will appear before Municipal Judge Pope for hearing on a charge of possessing concealed weapons.

His brother, Tony Corneo, will appear before Municipal Judge Frederickson on a charge of vagrancy. Both have pleaded not guilty and have asked for trials.

Frank Corneo was first arrested on a felony charge when police believed him to be an unscrupulous alien, since it is a felony for an alien to possess a weapon. However, Corneo showed citizenship papers and the case was dismissed to be settled at a misdemeanor.

Tony Corneo is expected to show that he is not a vagrant since he has several pieces of property and owns a restaurant, but the conviction will be asked on the grounds that the man is said to be a bootlegger and a rum-runner.

"EVE'S LEAVES" IS GLOOMS' DESTROYER

Leatrice Joy Emerges New Comedy Queen in World Premiere at Figueroa

"Make the people laugh," is the slogan of the producers today. To be able to do this is a test of one's comic faculty.

This test has been met and carried to admirable success by Leatrice Joy in "Eve's Leaves," which had its world premiere Saturday before capacity audiences at the Figueroa Theater.

Leatrice is an irresistible joy in the role of Eve, daughter of Robert Edson, ship's captain, who keeps her in boy's clothes.

As for her "leaves," she has a great variety. The favorite one is her shore leave. Although occasionally she turns over a few leaves in her activities to keep in her father's good graces.

It is Eddie Harris, ship's cook, "who knows his Freud," who starts all the trouble that passes the laughs. He gives Leatrice a book on "Vibration Love Tests." She goes ashore with her father while the ship is in Chinese waters. In the course of events she sees William Boyd. Immediately she tries out the vibration test. Aided by some well-timed "gags" it works on her part, but not on Boyd's.

So, through subterfuge she tries him up and down and then goes to one of the crew, "Epoem," old salt, and has him take Boyd aboard the ship.

There, while Boyd is tied to a post because he won't work, Leatrice tries to lure him with "sex appeal."

This is one of the funniest sequences in the picture. Her comic appearance, her innocence, her pretty wiles, her desire to please, the pensive grace, her feminine weakness and her artless simplicity are fascinating. And when she fed applies to the hungry Boyd at so many kisses per apple, the audience is given way to uproarious mirth when a flash is shown of the pair after "one hour and thirty minutes."

After this the story turns into farce and ends in a thriller—seemingly the chaos of caprice and chance, all beneficently directed and guided eventually to good ends.

As a matter of fact, one does not pay much attention to the story. One keeps watching for Leatrice to reappear and a eager gladness seems to diffuse itself through the house with each reappearance.

An excellent company surrounds her. Walter Long, in the role of a Chinese pirate, creates and sustains a perfect illusion which pleases immensely. Rollin, who appears as a sort of "Man Friday" to Long, acts in a rich vein of humor, with colorful effect. At the last, when both he and Long are captives and he speaks to Long, dramatizing the title, "So's your old Mandarin," he sets the house in an uproar of laughter.

William Boyd's performance in the role of the young American who gets mixed up in the chase with Eve is admirable. Robert Edson, as always, is excellent as the sea captain. Richard Carle gives a good bit as Boyd's father and the others in the cast add to the merits of the comedy, which seems all set to become a box office hit.

Surrounding the feature is a well-arranged bill with "In China Land," the miniature musical comedy, set in a brilliant mounting, one of the most attractive that has ever been staged at the Figueroa.

Glenn Tyrone's comedy, "Dunkle Shellie," is a riot of fun, rounding out an evening's entertainment that is a sure cure for the blues.

OKLAHOMANS RALLY TONIGHT
President Hendricks of the Oklahoma is calling them together for the closing rally of the spring tonight in Veterans' Hall, 244 South Hill street. A welcome will be extended to all from Oklahoma. The program will be followed by dancing.

Misses Claire Kaege and Moe Johnson recently started one of New York on a world tour with a \$25 stake wagering that they will return within five years still retaining a portion of the original \$25.

Rail Board to Resume Hearing on Union Depot

Cross-examination by railroad attorneys of witnesses for the State Railroad Commission who have testified favorably to a union station in the Plaza area, is expected to lead off the commission's resumption this forenoon of its hearings on the station question.

The commission today enters on a clean-up of evidence hearings as to whether the railroads should build a union passenger station in the Plaza area.

PLAYDOM

CASTS RADIANT SPELL

CHARM OF "MUSIC MASTER"
STILL PREVAILS

By Edwin Schallert

"The Music Master" still has the power to touch the heart of the theater audience.

While the passing of time may have taken something away from the plot and circumstance of this play, in which David Warfield gained perhaps his greatest fame, the appeal of its humanness remains strangely radiant.

Shadows of sentiment and of the past hovered around the stage at the Morosco Theatre where this study of the life of the artist type by Charles Klein, was presented yesterday afternoon, and exerted an effect of eloquent affecting interest and of charm. It may be truthfully said that it was one of the most tearful matinees lately enjoyed in any theater. There were perhaps only a few persons who have ever found that they had made no error in bringing an extra pocket handkerchief with them—they did! And a still larger majority who doubtless wished before the production was over that they had done so.

And that is proof sufficient that "The Music Master" still retains sufficient of its heart to reach public that finds those plays most interesting that not only have large but also a good reason for their popularity. How to consider this play without David Warfield, though, especially for those of us who saw it a dozen or fifteen years ago when it was at the height of its general acclaim, it is to know that it has ever before been attempted without his presence. Nor will anyone who has ever seen him in "The Music Master" forget that presence—and the intangible perfection of both humor and pathos with which he endowed the lovable, generous, but violently embittered Herr Anton Von Barwig, the title character. With what magnificent repose and swift changes of feeling he used to portray that character—so stumbling and awkward in so many ways, and yet so sure. It is a satisfaction to record that Otto Lederer, who assumes the part in the Morosco production after a long-cherished ambition to appear in "The Music Master" does not do that very obvious thing—a Warfield imitation. He has achieved a characterization which is sufficiently different to make a theme for interesting comment. I will not say that he is adequate. Nobody could be after Warfield. But at least he is distinctive in his conception of the role.

The most striking feature of his performance is that he gives Von Barwig a notable degree of dignity—emphasizing strongly his leaning toward the arts. This phase in his work is most pleasing, and though he has not measured fully all the shades of the lines of the play or come shyly near exhausting their possibilities especially for comedy, I can see where after a few performances he can make of his portrayal a very interesting achievement. And it is an achievement in itself to follow a Warfield in any play—most of all this.

Most at fault was Lederer's timing of the line—especially in the lighter scenes. There was a sense of restraint about both his voice and manner that did not inhibit the characterization with the necessary mean as much as those who have seen Warfield devote even, as it undoubtedly meant yesterday afternoon to many who had perhaps never seen "The Music Master." Lederer received a remarkable ovation at the end of the play, and he elicited a very keen response in his portrayal as a whole. The most deeply touching episode was the final one of the return of the daughter to the father, Charlotte Treuday, and much giving this a deep heart interest. Her performance throughout was exceptionally attractive.

Glenn beautiful still is that musical theme which accompanies the recollections and memories of "The Music Master." That, indeed, one of the most deft touches that David Barwig ever gave to one of his productions. Tremendously good was the performance of young James Bush as Herr August Pook, the German-speaking "cellist," who furnishes so much of the comedy. A great part of course, but taken all in all, also played splendidly.

Richard La Salle as the Italian artist, and the face Mary Duckett, Genevieve Ardolf, Elizabeth Hawthorne and Alois La Shier also were in the cast.

"MONEY TALKS" BUT IN QUEER JARGON

Rosa Rosanova Appears on Spoken Stage at Criterion in Fine Bit of Acting

"Money Talks"—but at the Criterion Theatre this week it is talking in such a wild and just bed fashion that it is difficult to understand what it is saying. The Metro-Goldwyn-Mayer picture now showing at the Criterion, Moore and Claire Windsor in the leading roles, is charming and interesting in spots but in the close range of the obvious hole of a slapstick comedy and doesn't emerge again.

Owen Moore does some outstanding acting in "Money Talks." His interpretation of Sam Stirling, the up-and-coming advertising agent, is lovable and very true to life. In fact in an utterly mad and delirious plot Owen Moore seems about the only rock to tie to.

Claire Windsor as the wife is a good, mad, and quite charming. The plot of "Money Talks" is of an advertising agent who has plenty of confidence but no money. He owes for everything but his wife and she leaves him, thus making his total assets—nil! From his brain there emerges a plan of

KOLB AND DILL IN FUN-RIOT

BY HERBERT MOUTON

A musical comedy that is a little herself puts in an appearance, quite unexpectedly.

A merry, rollicking piece of farce, with a little bit of the above-the-average talent. Roll them into one and you have the joyous comedy which Kolb and Dill are presenting this season under the title of "Pair of Fools." Theatergoers who attend the Matinee, where this musical show opened last night, will, of course, find a plentiful gobs of humor, after the unrestrained fashion of this pair of comedians, dominate the show. In this respect, "Pair of Fools" does not reveal any major differences from their offerings of previous years.

There is a difference, however, in the quality of the plot, although one considers musical comedy plots in general this does not sound like high praise. But "Pair of Fools" is not the ordinary collection of unrelated incidents haphazardly tied together by this pair of comedians. The plot is constructed around the "Whole Town's Talking," the clever farce by John Emerson and Anita Loos, which is a noticeable improvement in the quality of their offering—a general refinement in tone.

This is not to be taken as an indication that the Kolb and Dill of yore have been having anything like that. That peculiar accent which characterized that once-famous duo, and which, in evidence, and their vociferous registration of the footlights to good effect.

As those who saw "The Whole Town's Talking" will recall, the story is constructed around the desire of a wealthy lumberman, played by Kolb, to marry his daughter, who is played by Dill. Inasmuch as the latter presents an unusually dumb aspect where romance is concerned and because the daughter favors the sophisticated type of lover, it is apparent that there are many bridges to cross and everything works out to the father's satisfaction.

In order to lend the proper romantic touch to Dill's character, Rudy Valentino, Kolb takes a romance with Lillian, the mother of the "queen." The plan works: Kolb's daughter succumbs to his hastily-evolved charms. An everything goes along all right until making a rest cure sanatorium of a nearby island.

The results of this idea are so jumbled that the story sits by the side of the road and switches the picture go by from the plot and there is slapstick aplenty.

Ned Sparks appears in a rather scumbor role, which is not the usual comedy type, but is clever. Just the same, while Kathleen Key and Bert Roach are excellent bit, done remarkably well. Not a big picture, "Money Talks," but an amusing way to spend an hour or two. Something to laugh at—and nothing to think about.

"The Show Play" is an excellent contribution to the Criterion's bill this week. It is well worth seeing. Miss Rosanova as the blind mother who regains her sight through the firing of a gun, does some splendid acting, although there is a tendency in spots to be a little too emotional. However, the act as a whole is excellent.

A Mack Bennett comedy called "Sweet Pickles" is presented, with Alice Day in the leading role. The story is nothing but a series of just about everything. She saunters through a mad slapstick comedy like a breath of spring. What little Miss Day will do when she talks out of comedies, and the features will be interesting to watch. She is certainly charming.

Newman Club Players Stage Clever Comedy

In the cause of laughter the Newman Club of the University of California, Southern Branch, presented "Nothing But the Truth" Friday evening in Newman Hall on the campus. The play was just what the production was extremely funny.

The play deals with the struggle of a young man to win a bet, by telling nothing but the truth for twenty-four hours without lying.

The cast, which was composed of members of the Newman Club, was quite good. The play was a comedy and had the touch of the amateur but the laughs were plentiful and for the most part the play was well worth seeing.

Cyril Nigg as the fated young man, was quite funny, and looked very much a harassed business man. Elizabeth Reader played his sweetheart with a calm nicety which suggested little of a girl in love, but expressed a great abundance of peace nevertheless.

Charles Dibble, John Layman, John Walsh and Antonio Duenos also had important parts in the play. Mr. Duenos in one scene succeeded in some very clever acting as he shouted for his money. A modern Shylock and face Mary Duckett, Genevieve Ardolf, Elizabeth Hawthorne and Alois La Shier also were in the cast.

Final Rehearsal is Promise of Play's Success

As reviewed last night in its dress rehearsal, the Florence Dobson presentation of "The Sin of the Sins," promises a unique and splendid treat for those who will attend its opening tonight at the Grand Club Theatre, or, perhaps, performance throughout its week's run there.

This story, dramatized for the first time, is written and spoken in a prose-verse. The story is intense. Yet it ends happily, and naturally so.

Under the able direction of Fred J. Butler, this little company of earnest dramatists give this modern classic a new twist in style that will win the approval of the most critical.

The original script by Stephen Phillips is dated 1913, and the play has been costumed in that period, but the story is palpably based upon the dramatic literature of the Bible, in which David, Uriah and Bathsheba are the principals.

FLASHES

STAGE STAR

MAY ROBSON SIGNS WITH CECIL DE MILLE

By Grace Kingsley

We Americans must have our comedy, it seems, just as the Europeans revel in their soggy drama. More and more the comedians are being signed up by the big film companies to lend sweetness and light even to the more dramatic films.

Now it is May Robson, who has long delighted us on the stage in her comedies portraying a whole lot of feminine middle class made a contract with Cecil B. De Mille.

Whether Miss Robson will play the lead in "The Rejuvenation of Aunt Mary," in which Miss Robson starred some time ago, is not yet certain. Just at present she is scheduled to play a leading part in "Ladies Must Love," a comedy which she will play a star part in "Turkish Delight," a story which Irvin S. Cobb is at present engaged in writing for Mr. De Mille.

In the meantime Mr. De Mille was delighted, the other day, when I was chatting with him to read me a telegram which he had just received from his eastern office, stating that twelve theaters have been added to the list of Keith-Albee houses which are to branch out as picture houses, and in which the output of the Associated Producers will be shown.

BUSTER COLLIER TO AID IN GLORIFYING

Getting a chance to help glorify the American girl is the plan of Buster Collier, Jr., to whom the spotlight is being turned. Buster Collier, Jr., to whom the spotlight is being turned, will adhere to the plan to shake it. The young actor has been assigned a nice role in a Paramount picture, "Glorifying the American Girl," in which he will play a leading male role, and gone East for the purpose. Louis Moran, as I've told you before, is to have the heroine part, and Edward Siskind will direct.

Buster left for the East a couple of weeks ago. Production is to start until about the middle of June, but in the meantime young Collier is having a pleasant time visiting relatives and seeing the New York show.

Florence Ziegfeld will quite logically supervise the picture in person, since the story is virtually putting the Follies in the screen for the first time.

CLARENCE BROWN Comes Home

Clarence Brown, accompanied by Mrs. Brown, has just returned from New York, where he saw all of the twenty-five picture plays, and all of them he looked at with an eye to picturizing them.

The result is that Mr. Brown will quite probably film "The Jazz Singer" in which George Jessel has been playing in New York. Jessel at present is under contract to Warner Brothers, but it would be impossible, probably, to borrow him for the part. Or failing that, Metro-Goldwyn-Mayer themselves, to whom Brown is under contract, could probably furnish a star who would do credit to the picture.

"The Wisdom Tooth" also would make a splendid picture, says Mr. Brown.

As for screen material, among the stage actors, Mr. Brown says that he really did make one discovery—Mary Duncan, who is appearing in one of the Broadway productions. No negotiations have been entered into with her, however.

Mr. Brown brought home another interesting piece of news. It seems that in the same New York hospital where Bebe Daniels is recovering from her injuries, she also was injured by the same horse before selling him to the academy.

Kenneth Harlan Leaves Warner's

Kenneth Harlan has left the Warner Brothers' stable, following the example of his wife, Marie Prevost, he has severed his connection with the studio.

He has not yet allied himself with any picture company, but he is now free to receive what he wants, he will continue to free lance.

Harold Lloyd Taking Thought

Harold Lloyd, it is learned, is about making his next picture. He is going to consider the stories he has at present in mind with great care before finally making up his mind just what he will do next.

The comedian, it is said, was not particularly well pleased with "For Heaven's Sake," and when it failed to make the record of its predecessors he decided it was time to stop and look around, considering carefully before again choosing a subject.

The Grand Duchess Maria, cousin of the late Czar Nicholas of Russia, runs an embroidery shop in Paris.

**ORANGE SHOW IS POPULAR**

Anaheim Hosts to Biggest Crowd in History

Exhibit Attracts Many Los Angeles Visitors

Civic Clubs to Entertain Guests Today

ANAHEIM, May 16.—This little Orange county city today during the day and more coming as the evening wore on. The show covers a lot of space but standing room was at a premium. All auto parks were filled to capacity, restaurants were crowded and the streets were thronged with people. The show is a big success and the organizers are confident that it will be the largest in the history of the city.

It was Los Angeles County Day and the county came out to see the show. The Los Angeles county display won first prize in the class of displays without mechanical action. It was also a source of reunion for many of the members of the German Society who came over from Los Angeles and engaged in a social gathering. The display was a big success and the organizers are confident that it will be the largest in the history of the city.

During the day the program was supervised by special artists who included Sara Cavin, soprano; Ben Barker, ballad singer; Ashley Blum, King Breeze, Venice Blum, Orchestra and Dutton's Society Choir.

The show includes not only the big feature tent with twelve features, but also a rack display which is declared to be the finest display of citrus fruits ever made by the organization, an automobile show, an industrial show, an art exhibit and a joy zone. The whole exposition is a big success and the organizers are confident that it will be the largest in the history of the city.

Tomorrow will be civic clubs day with Lions, Rotary, City Club and Kiwanis. Tuesday will be a big day. It is expected in view of the fact that it is designated as Los Angeles day. The seaside city will send an automobile caravan to Anaheim along with a band and hundreds of former locals. The show continues until next Sunday night.

INGLEWOOD FACTORY MAKES FINE RECORD
INGLEWOOD, May 16.—A "Peanut story" is that being broadcast by C. E. Smoot of the Smoot-Holman Company of this city. It is to the effect that this concern is now producing from sixty to sixty-five bushels a day here.

The growth of this concern is an apt example of the tendency of Southern California industry to get down to business. The concern is now producing from sixty to sixty-five bushels a day here.

RUSH CONSTRUCTION
Work on Long Beach Breakwater Progresses Nicely
By a "Times" Staff Correspondent
LONG BEACH, May 16.—Rapid progress in the construction of the Long Beach breakwater is indicated in reports filed with the city that show that practically 1000 feet of the trestle has already been constructed and that actual delivery of rock for the base of the breakwater will begin early in June. The work, which is being carried out under the direction of the Harbor Construction Company of Oakland, which also has the contract for the east and west moles at the harbor entrance, is up to schedule, company officials reported.

Approximately 75,000 tons of rock are being brought to Long Beach Harbor from the quarries in Riverside county each month and this is being utilized on the construction of both moles and the bulkheads on the sea ends of a moles. With the completion next month of the dumping of this rock for the moles, additional crews will be taken from the moles and put to work on the breakwaters, it was announced today.

SCHOOL FOR POLICE TO OPEN AT ANAHEIM
ANAHEIM, May 16.—Initiation in this city of a police school similar to the school for officers maintained in connection with the Los Angeles police department was announced today by Chief of Police J. S. Martin.

Instructions in the school is to be under the direction of Sgt. Johnson, an instructor in the Los Angeles school, who was secured to instruct the local classes. Blackboard talks and practical demonstrations will feature the weekly lessons. Particular attention is to be paid to the newly adopted city traffic ordinance.

AIRPLANES HELP SAVE BIG CROP

Imperial Valley Ranchers Employ Flyers to Aid in Mildew Eradication

EL CENTRO, May 16.—In an effort to eradicate the mildew that threatens serious damage to the 23,000-acre cantaloupe crop now maturing in Imperial Valley, a group of ten of the largest growers have agreed to finance the use of airplanes in dusting the fields with a sulphur compound that is believed to furnish a remedy.

Arrangements have been made with a firm of commercial aviators that has been operating successfully for several years in the cotton boll-weevil-infested areas.

It is claimed that a forty-acre field can be effectively covered in less than half an hour, the plane being able to follow the rows of the crop and throw the dust over the plants. The dust is a sulphur compound that is believed to furnish a remedy.

That the damage has not been serious up to the present time, is indicated by the fact that the bulk of the crop has reached the 200-car mark this week, the total output for the season being slightly under 1000 carloads to date.

Eastern market prices have been unusually high so far this season, and growers have realized a substantial profit on melons shipped to date. The bulk of the shipments up to this time have gone out from the Brawley and Westland districts in the north end of the valley, but heavy plantings in the central and southern districts are expected to begin maturing during the coming week.

By a "Times" Staff Correspondent
PASADENA, May 16.—Miss Celeste Turner of this city, who was the youngest member of the graduating class of Pasadena High School in 1921, has just achieved the honor of receiving her master's degree at the University of California at the unusually early age of 24.

Not only has Miss Turner completed five years of college work at the University of California, but she is also starting college, but the quality of her work has been so high that she has been awarded the honor of receiving her master's degree at the University of California at the unusually early age of 24.

PROFESSIONS BUILDING
Pasadena to Build Six Story Structure for Doctors
By a "Times" Staff Correspondent
PASADENA, May 16.—Plans have been completed for the construction of a new six-story building to be known as the Medical-Dental Building, at the corner of Green and Main streets.

The offices in the projected structure, 60 per cent of which have been leased, will be used exclusively by physicians and dentists, and each suite of offices is being built with the needs of the medical profession in mind.

The property has a frontage of 145 feet on Green street and forty feet on El Molino avenue. It is the plan of the building, which will be in the modern Italian style, that the building has been planned for its construction, and ground is expected to be broken within sixty days.

COALING VETERANS TO HAVE NEW HOME
COALINGA, May 16.—A new and better home for the American Legion Post of this city is being energetically advocated by the legionnaires. The residence purchased by the Fresno County Board of Supervisors has proven to be entirely inadequate and the supervisors have unanimously agreed to the sale of the building.

The local committee is now looking for a buyer for the residence and a location for a new building which will meet local needs. The community festa held in Phelps Park here yesterday, at which an excellent assortment of entertainment was provided, was the first of a series of events for the benefit of the Coalinga Community Band, the Boy Scouts and the baseball park.

COLTON COMPANY BUILDS NEW GIN
CORCORAN, May 16.—Three carloads of materials and machinery for the fifth cotton gin to be built here is on the ground and the gin is expected to arrive immediately. The gin is to be of the Globe Cotton Mills type, which has been erected on a half-acre new plants in the San Joaquin Valley this year, including one here, one at Hanford, Kings county, and one at Truxtun, Fresno county. The gin here is on the five-acre Gardner tract, on the east side of the industrial district, on which tract the Globe company recently took a long lease.

TO PROBABLY WILL
VIRALIA, May 16.—Mary A. Wallace, widow of the late Superior Judge W. B. Wallace of Tulare county and recently arrived in this city, is petitioning for probate of the estate of the deceased. The property set forth in the petition is a lot in Viralia, part of another lot in Viralia, and a small acreage on the Sierra Heights tract of Forterville.

Aside from the real property, a considerable amount of stock and bonds, the exact sum not being disclosed.

FOR NATIONAL PLAYGROUND

Oxnard Man Starts Agitation to Have Community Service Put Into Hands of State Committee

OXNARD, May 16.—For the purpose of bringing about the appointment of a special State Recreation Committee F. J. Hokin, secretary of Oxnard Community Service and local representative of the National Playground and Recreation Association of America, has communicated with Gov. Richardson. Hokin received a reply from the Governor in which the chief executive stated he would be glad to consider the suggestions.

Hokin, who is keenly interested in the development of recreation in its largest meaning, is endeavoring to follow up a plan started last year when national outdoor recreation was discussed. The preservation of the return from the Santa Maria mountains and play areas is urged by the President and also by the delegates from the various States to the meeting by the State governors. California was represented by the Hon. J. C. Long Beach, who asked Mr. Hokin to communicate with Gov. Richardson on the matter.

According to Hokin, both Santa Maria and Oxnard are interested in the establishment of a State recreation committee to work with the local recreation committee in the preservation of certain locations which may become public playgrounds.

EXCEPTIONAL STUDENT
Pasadena Girl Master of Arts at Age Twenty
By a "Times" Staff Correspondent
PASADENA, May 16.—Miss Celeste Turner of this city, who was the youngest member of the graduating class of Pasadena High School in 1921, has just achieved the honor of receiving her master's degree at the University of California at the unusually early age of 24.

Not only has Miss Turner completed five years of college work at the University of California, but she is also starting college, but the quality of her work has been so high that she has been awarded the honor of receiving her master's degree at the University of California at the unusually early age of 24.

TRAINING CAMP FOR FLYERS AT SANTA MONICA
By a "Times" Staff Correspondent
SANTA MONICA, May 15.—More than 140 officers and men of the United States Army Air Corps will go into bivouac this summer at Clover Field, according to plans submitted to the commanding officer, and Santa Monica Bay district cities are sure to be both a benefit and a pleasure to the flyers.

The flyers will be permitted to visit the city and the surrounding area, and the city will be a great benefit to the flyers. The flyers will be permitted to visit the city and the surrounding area, and the city will be a great benefit to the flyers.

DISCUSS DEVELOPMENT
Cal Citizens' Meeting Relative to Municipal Airport
By a "Times" Staff Correspondent
SANTA MONICA, May 16.—Military and commercial aviators will meet with Commissioners of Public Works John Morton at the Clover Field headquarters building next Friday evening in a conference on the building and development program for the field, purchase of which was voted in an \$18,000 bond issue held recently in Santa Monica.

Remodeling of the field to conform with the city's plans for a municipal airport, golf links and site for the Douglas Company's new airplane manufacturing plant, and take definite shape in the near future, according to Lieut. Horace Kenyon, commander of the field.

Co-operation between municipal and military interests will be the objective of the coming conference. Citizens interested in aviation and the municipal recreation projects involved, have been invited to attend the meeting and participate in the discussions.

WOMAN RECOVERS OF SLEEPING SICKNESS
SANTA BARBARA, May 16.—Mrs. Fred Mercer of Ventura is in the Cottage Hospital recuperating from sleeping sickness, a bulletin from the hospital stated last night. She was taken to the hospital by a friend and is now recovering from the illness.

KNIGHTS GATHER FOR ANNUAL CONVENTION
SANTA BARBARA, May 16.—The Knights of Pythias and Pythian Sisters, delegates to the Grand Lodge and Grand Temple meetings of the order, began to arrive at the hotel at Santa Barbara last night. The annual convention of the order will be held here this week. Officers of the two orders will hold sessions during the day tomorrow.

SHIP TONS OF LETTUCE EVERY DAY

Valuable Crop is Moved From Ranches in Santa Maria Valley

SANTA MARIA, May 16.—Shipments of lettuce from the Santa Maria Valley is averaging over twenty carloads a day and the total output for the month of May is expected to exceed 500 carloads, according to the official announcement made here today. Reports for the past seven days show the shipments from the Santa Maria and Guadalupe stations at 152 carloads. April shipments from the two valley stations totaled 270 cars.

Santa Maria and Guadalupe, nine miles west of here, are about twenty miles from the Santa Maria Valley. The lettuce is grown in the valley and is shipped to the market.

The spring crop of lettuce has about reached its peak in the Santa Maria Valley and planting will soon be made for a later crop. The lettuce is grown in the valley and is shipped to the market.

COURT GIVES LECTURE
SANTA BARBARA, May 16.—One of the most severe lectures ever given a defendant in a criminal action was delivered by Judge S. E. Crow in Superior Court yesterday, when Herbert Thom appeared before him on a writ of habeas corpus to secure his release from the County Jail.

The building of this much needed school has been hanging fire through various delays for some time. More than a year ago the site of twenty acres on Colfax street was purchased. Since which time the building has been hanging fire through various delays.

STUDIES LOCAL TRAFFIC

Chairman of Chicago Committee Pays Big Compliment to Los Angeles System

By a "Times" Staff Correspondent
PARADENA, May 16.—Los Angeles' system of handling downtown traffic is recognized as the best in the country, says Elmer T. Stevens, manager of Charles A. Stevens & Co. of Chicago, and because it is the best, as chairman of the Chicago Metropolitan Traffic Survey, he is here, stopping at the Hotel Huntington, to study the Los Angeles methods so that their best features can be applied to Chicago's overgrowing traffic problem.

When Mr. Stevens was appointed chairman of the Chicago Metropolitan Traffic Survey by the City Council of the midwest metropolis, every Chicagoan he met, he relates, who had been in Los Angeles told him that the city's system was so effective that Chicago's needs would be best met by the knowledge resulting from a study of the country and other cities which have followed the example.

"The difficulty of following Los Angeles' lead is that it is the best," he said. "We have tried it in Chicago, but with only moderate success. We have tried it in Chicago, but with only moderate success. We have tried it in Chicago, but with only moderate success."

Long-Needed Bus Line for Valley May be Started
LANKERSHIM, May 16.—Citizens have been notified that the Los Angeles City Council has approved the granting of a franchise to private parties for a bus line that will make long trips over the Burbank street and then toward the Magnolia Park and Lankershim section in a westerly direction, the main purpose of the line being to serve as a bus line between Lankershim and the Burbank trolley line, toward Glendale and the metropolis.

Citizens at Van Nuys, and towns in the western part of San Fernando Valley have been interested in the establishment of the proposed line for some time, for now there is no way to reach the Burbank and Glendale sections from the western part of the valley and from Lankershim, except by riding the trolley almost to Los Angeles, and then doubling back to the Burbank and Glendale trolley line. The proposed line when established will shorten the distance and time of travel fully 100 per cent.

LANKERSHIM FINALLY TO GET HIGH SCHOOL
LANKERSHIM, May 16.—There is finally assurance now that the long-delayed 4400,000 high school for Lankershim. New plans by architect James H. Wright for the school are being submitted to the Los Angeles Board of Education, checked over and approved, and the building is to be started soon.

The building of this much needed school has been hanging fire through various delays for some time. More than a year ago the site of twenty acres on Colfax street was purchased. Since which time the building has been hanging fire through various delays.

ALL READY TO GO OUT TODAY

Orange County Carpenters Order Strike on Mixed Jobs

SANTA ANA, May 16.—The Orange County Carpenters' Association has ordered a strike on mixed jobs, effective June 18, unless the employers agree to a new contract by that date.

The strike is not a general walkout of the carpenters, but a selective one, covering only mixed jobs, which are those in which carpenters are permitted to do a job with a union card.

The strike is not a general walkout of the carpenters, but a selective one, covering only mixed jobs, which are those in which carpenters are permitted to do a job with a union card.
